2.0 GENERAL OVERVIEW

2.1 Intent and Scope

The request for proposal is intended to solicit proposals from reputable International Education Organizations (IEO) to establish an ongoing presence and strategic partnership on University of Kentucky's campus. Our goal is to increase capacity and enrollment in education abroad by embedding an education abroad provider within University of Kentucky Education Abroad & Exchanges (EA), a unit within the UK International Center (UKIC).

The selected IEO will employ two full-time professional international educators in Kentucky, who will represent the IEO on the UK campus and work closely with UK EA to support: Global UK's 2021-2026 strategic plan priorities, institutional goals for education abroad as a high-impact practice, development of customized faculty-directed programs, extend UK EA's presence on campus and increase enrollment in education abroad. Specifically, the IEO will be expected to demonstrate an intentional commitment to support UK EA's efforts to increase education abroad access for students who are traditionally underserved in education abroad enrollment. The two campus-based IEO representatives will maintain a regular presence on campus, as agreed upon with UK EA leadership, and will be expected to facilitate and participate in promotional activities aimed at encouraging engagement in education abroad, for UK students, faculty, and staff. UK EA leadership shall approve all IEO promotion and outreach activities, which is the same for all partner providers. The IEO representatives are also expected to engage UK faculty and other campus departments to develop customized education abroad programs that will increase UK student enrollment in education abroad.

The selected IEO may promote their programs – as part of the UK EA approved portfolio – to UK students and departments.

The University shall provide a private office space on campus to the selected IEO. In return, the selected IEO will maintain and manage a mutually agreed upon funding strategy to be used for student scholarships, site visit engagement, and other activities essential to achieving the aforementioned objectives. The selected IEO will have access to campus guest WiFi but will need to set up internal phone/printer/copier connections outside of UK's central service.

2.2 Background Information

Education abroad is a research-proven, high impact practice that is shown to lead to greater student retention and persistence to degree completion, as emphasized in the Global UK 2021-2026 Strategic Plan. Education abroad fosters the development of transferable skills, offers real-world applications and enhances cross-cultural competence. And because employers are seeking globally-minded graduates who can navigate an evolving workforce, universities have an obligation to provide students with meaningful global learning opportunities.

UK Education Abroad & Exchanges (UK EA) facilitates for-credit education abroad programs and experiential global learning opportunities for entire university. UK EA works with UK faculty, staff, international partners, and organizations to develop and offer a diverse portfolio of innovative academic programs for students to study, intern, research, teach and do service across the globe. UK EA oversees non-degree seeking student mobility through exchange programming with partner universities around the world. The UK EA team has extensive professional experience in

international education, follows national best practices and strives to ensure the highest level of professional service to UK students and employees. UK EA offers subject-matter expertise, data-driven guidance, ongoing orientation and international crisis response to any student or faculty member participating in an education abroad program.

The UK EA unit is comprised of an executive director, associate director, four education abroad advisors, a faculty-directed programs manager, financial manager, operations manager, promotion and outreach coordinator and a computer systems and strategic technologies coordinator. In addition, the unit employs a robust team of student staff, who serve as peer ambassadors and support office functions.

The number of UK students enrolled in for-credit education abroad programs total approximately 1,100 annually, or approximately 20% of the entire UK graduating class. The majority of UK students choose destinations that are consistent with IIE Open Doors' national enrollment trends, with the United Kingdom, Italy, Spain and Greece as some of the most popular destinations.

UK EA categorizes education broad programs into the following program types:

1. Faculty-directed: Faculty program directors provide real-world learning opportunities beyond the campus classroom to explore global dimensions of their field and to foster meaningful, intellectual and intercultural experiences that account for nearly half of the overall enrollment in education abroad programs. UK EA partners with approximately 50-60 faculty program directors each year to facilitate approximately 40-50 programs.
2. Consortia: UK maintains institutional memberships with consortia organizations like National Student Exchange (NSE), Cooperative Center for Study Abroad (CCSA) and Kentucky Institute for International Studies (KIIS).
3. Exchanges: UK EA supports over 60 reciprocal exchange partnerships to facilitate both inbound and outbound non-degree seeking exchange opportunities that are affordable semester-long options for immersive studies.
4. Partner: UK is affiliated with a portfolio of vetted, reputable IEOs to strengthen and diversify the education abroad portfolio of program types.
5. Other: Additional global learning opportunities for UK students also include direct enroll programs, independent study, clinical rotations and even global virtual experiences.

In order to increase capacity, maintain an ambitious enrollment trajectory and continue a commitment to increasing access for students who are traditionally underserved, UK is inviting proposals from affiliated IEOs to establish a non-exclusive, physical presence at the University of Kentucky. The primary purpose is to invite an affiliated IEO to become an embedded, strategic partner that supports Global UK's 2021-2026 priorities, institutional goals for education abroad as a high-impact practice, development of customized faculty-directed programs, extend UK EA's presence on campus and increase enrollment in education abroad.

2.3 University Information

Since his arrival, President Eli Capilouto has set forth an ambitious agenda to extend and enhance our role as Kentucky's land-grant and flagship research university. By focusing on infrastructure growth and improvement; creating opportunities for innovative teaching, learning, and academic excellence; fostering a robust research and creative scholarship enterprise; providing life-saving subspecialty care; empowering communities through service and outreach; and encouraging a

transparent and shared dialogue about institutional priorities; the University of Kentucky will ensure a new century of promise for the people we impact.

Founded in 1865 as a land-grant institution adjacent to downtown Lexington, UK is nestled in the scenic heart of the beautiful Bluegrass Region of Kentucky. From its early beginnings, with only 190 students and 10 professors, UK's campus now covers more than 918 acres and is home to more than 30,000 students and approximately 14,500 employees, including more than 2,300 full-time faculty. UK is one of a small number of universities in the United States that has programs in agriculture, engineering, a full complement of health colleges including medicine and pharmacy, law and fine arts on a single campus, leading to groundbreaking discoveries and unique interdisciplinary collaboration. The state's flagship university consists of 17 academic and professional colleges where students can choose from more than 200 majors and degree programs at the undergraduate and graduate levels. The colleges are Agriculture, Food and Environment; Arts and Sciences; Business and Economics; Communication and Information; Dentistry; Design; Education; Engineering; Fine Arts; Graduate School; Health Sciences; Law; Medicine; Nursing; Pharmacy; Public Health; and Social Work. These colleges are supported by a modern research library system.

Research at the University of Kentucky is a dynamic enterprise encompassing both traditional scholarship and emerging technologies, and UK's research faculty, staff and students are establishing UK as one of the nation's most prolific public research universities. UK's research enterprise attracted \$285 million in research grants and contracts from out-of-state sources, which generated a \$580 million impact on the Kentucky economy. Included in this portfolio is \$153 million in federal awards from the National Institutes of Health, non-NIH grants from the Department Health and Human Services, the National Science Foundation, Department of Energy, Department of Agriculture and NASA, among others. The National Science Foundation ranks UK's research enterprise 44th among public institutions.

With more than 50 research centers and institutes, UK researchers are discovering new knowledge, providing a rich training ground for current students and the next generation of researchers, and advancing the economic growth of the Commonwealth of Kentucky. Several centers excel in the services offered to the public. The Gluck Equine Research Center is one of only three facilities of its kind in the world, conducting research in equine diseases.

The Center for Applied Energy Research is pursuing groundbreaking discovery across the energy disciplines. CAER staff are pioneering new ways to sustainably utilize Kentucky natural resources through carbon-capture algae technology, biomass/coal to liquid products and the opening of UK's first LEED-certified research lab to support the development of Kentucky's growing alternative energy industry. Among the brightest examples of UK's investment in transformative research is the Markey Cancer Center. As a center of excellence and distinction at UK, Markey's robust research and clinical enterprise is the cornerstone of our commitment to Kentucky – fundamental to our success in uplifting lives through our endeavors and improving the general health and welfare of our state – burdened by the nation's highest rate of cancer deaths per 100,000 people. In 2013, Markey earned the prestigious National Cancer Institute-designation (NCI) – one of 68 nationally and the only one in Kentucky.

The University of Kentucky was awarded a \$20 million Clinical Translational Sciences Award (CTSA) from the National Institutes of Health (NIH). As one of only 60 institutions with this research distinction, UK was awarded the CTSA for its potential in moving research and discovery in the lab into practical field and community applications. The CTSA and NCI are part of a trifecta of federal

research grants that includes an Alzheimer's Disease Center. UK is one of only 22 universities in the country to hold all three premier grants from NIH.

Established in 1957, the medical center at UK is one of the nation's finest academic medical centers and includes the University's clinical enterprise, UK HealthCare. The 569-bed UK Albert B. Chandler Hospital and Kentucky Children's Hospital, along with 256 beds at UK Good Samaritan Hospital, are supported by a growing faculty and staff providing the most advanced subspecialty care for the most critically injured and ill patients throughout the Commonwealth and beyond. Over the last several years, the number of patients served by the medical enterprise has increased from roughly 19,000 discharges to more than 36,000 discharges in 2014.

UK Chandler Hospital includes the only Level 1 Trauma Center for both adult and pediatric patients in Central and Eastern Kentucky. In addition, UK HealthCare recently opened one of the country's largest robotic hybrid operating rooms and the first of its kind in the region. While our new patient care pavilion is the leading healthcare facility for advanced medical procedures in the region, our talented physicians consult with and travel to our network of affiliate hospitals so Kentucky citizens can receive the best health care available close to their home and never need to leave the Bluegrass for complex subspecialty care.

UK's agenda remains committed to accelerating the University's movement toward academic excellence in all areas and gain worldwide recognition for its outstanding academic programs, its commitment to students, its investment in pioneering research and discovery, its success in building a diverse community and its engagement with the larger society. It is all part of the University's fulfillment of our promise to Kentucky to position our state as a leader in American prosperity.

SUSTAINABILITY

Sustainability is an institution-wide priority for the University of Kentucky. We strive to ensure that all activities are ecologically sound, socially just, and economically viable, and that they will continue to be so for future generations. This commitment also prioritizes the integration of these principles in curricula, research, athletics, health care, creative works, and outreach. This principled approach to operational practices and intellectual pursuits is intended to prepare students and empower the campus community to support sustainable development in the Commonwealth and beyond. The UK Sustainability Strategic Plan guides these efforts (<https://www.uky.edu/sustainability/sustainability-strategic-plan>).

2.4 Supplier Diversity and Procurement

The University of Kentucky is committed to serve as an advocate for diverse businesses in their efforts to conduct business. Diverse Business Enterprises (DBE) consist of minority, women, disabled, veteran and disabled veteran owned business firms that are at least fifty-one percent owned and operated by an individual(s) of the aforementioned categories. Also included in this category are disabled business enterprises and non-profit work centers for the blind and severely disabled.

The University is committed to increasing the amount of goods and services acquired from businesses owned and controlled by diverse persons to 10% of all procurement expenditures. The University expects its suppliers to support and assist in this effort.

Among the University's goals for DBE participation in procurement are:

- To ensure the absence of barriers that reduce the participation of diverse suppliers
- Educate vendors on "how to" do business with the University
- Support diverse vendors seeking to do business with the University in the areas of goods, services, construction, and other areas of procurement
- Encourage participation of qualified diverse vendors by directing them to agencies that can benefit from their product or service
- Provide resources for diverse vendors
- Sponsor events to assist diverse vendors in becoming active, responsible, and responsive participants in the University's purchasing opportunities

For additional information regarding how diverse suppliers may participate in this Request for Proposal, submit any questions to the Purchasing Officer as indicated in Section 3.2 by the Deadline for Written Questions date.
