## **2.0 GENERAL OVERVIEW**

### **2.1 Intent and Scope**

The University of Kentucky (UK) Office of Philanthropy and Alumni Engagement (PAE) is seeking proposals for a comprehensive gift processing and gift record management solution that can be integrated with UK's instance of Salesforce as Constituent Relationship Management (CRM) tool of record for all alumni, donor, and prospect data. Our goal is to identify and purchase a solution which will allow for streamlined and improved processing of all philanthropic gifts and commitments to UK, totaling as many as 100,000 transactions from 50,000 donors annually. This tool must provide gift and pledge entry and processing capabilities, reconciliation, complex reporting, processes for tracking and acknowledging gifts, and accurate and up-to-date information relative to our fundraising efforts—all of which must be done in adherence to UK policy and procedural compliance with both internal and external audit requirements, the Council for Advancement and Support of Education (CASE), and subject to IRS and GASB requirements.

Broadly speaking, we envision a system that allows for the following functionality:

- The system should allow for quick and easy entry of gifts, including the ability to record donor information, gift amount, and critical data points for tracking and reporting purposes.
- The system should have the ability to seamlessly import gift information for gifts deposited by other units across the University.
- The system must have the ability to produce/support the production of tax receipts and gift acknowledgements.
- The system should have the ability to distribute/support the distribution of electronic receipts and gift acknowledgements.
- The system should have the ability to generate standard and customized reports on gift data, such as donor demographics and giving history, as well as the ability to export this data for further analysis.
- The system should have the ability to charge an advancement fee on certain gifts, while allowing for the exemption of the advancement fee in specific cases.
- The system should have the ability to use journal entries to track the movement of gifts between funds and allow for historical tracking and reporting of these transfers.
- The system must integrate with our existing Salesforce instance, including the ability to pull in donor and gift or commitment information from other areas of the platform.
- The system must have the ability to integrate with SAP financial system of record for the university for the purpose of direct posting gift deposits and journal entries.
- The system should comply with applicable data protection regulations and offer robust security features to ensure data security and privacy.
- The system must have the ability to integrate with ADFS Single Sign-On protocols.

A full list of detailed requirements for this project may be found in Section 7.0 below. These requirements are categorized by importance ranging from essential/non-negotiable to preferred for improving business processes.

We would appreciate proposals that outline the capabilities of your solution, as well as any relevant experience your team has in implementing gift entry management solutions at large research universities with comprehensive philanthropy and alumni engagement operations, and integration with Salesforce.

## **2.2 Background Information**

In February 2019, the UK Philanthropy and Alumni Engagement department, together with their implementation partners Huron Consulting Group, initiated the development stage of a customized Salesforce solution for managing alumni and philanthropy activities across the entire University. This transition to Salesforce was initially part of a broader UK initiative aimed at consolidating data and resources for various stakeholders, including prospective and current students, alumni, donors, and potential supporters. The main objective of the project was to introduce a cutting-edge CRM system as UK's primary alumni/donor engagement tool and record-keeping platform, replacing the outdated Millennium system and several other software applications. The directive was to maximize the use of Salesforce as a single solution, and if a suitable Salesforce option was available, to employ it whenever practical.

The deployment of the PAE Salesforce organization, also known as RADAR, comprised five releases over two stages. The first phase involved creating custom-built solutions for alumni engagement, annual giving, donor relations and stewardship, events, foundation and corporate philanthropy, gift and estate planning, gift officers, UK Healthcare, prospect management, and prospect research. By the end of Phase I in June 2021, nearly 200 users from 35 units across the UK were utilizing RADAR.

The second phase was intended to fully implement Salesforce's Gift Entry Manager (GEM) tool for recording, processing, acknowledging, and reporting all gift and pledge activities across the UK, as well as a complete phase-out of Millennium. However, after several months of collaboration with Huron and an extra year of what was believed to be the final development of GEM by the internal Salesforce team, it was discovered that Salesforce had ceased development and further improvements on the GEM product. As a result, GEM was unable to meet the requirements of PAE and those of our internal and external auditors. Consequently, a custom solution for PAE's Gift Receiving office became infeasible. The UK continues to use Millennium for all gift processing activities, but it is widely acknowledged that this is not a viable long-term solution. This realization has led to the initiation of the RFP process to explore alternative options, evaluate other product offerings, and investigate their capabilities.

The successful integration and conversion process thus far has been made possible through close collaboration between PAE, UK's Enterprise Salesforce Operations Group (ESOG), and University Financial Services (UFS). Throughout the RFP process, PAE, UFS, and ESOG will work together to identify the optimal solution for UK's needs. ESOG will contribute technical expertise and a comprehensive understanding of how the chosen product will integrate with other Salesforce platforms and organizations within the University. UFS will offer insights regarding external auditor requirements and Governmental Accounting Standards Board (GASB) reporting procedures that must be preserved within the CRM product.

## **2.3 University Information**

Since his arrival, President Eli Capilouto has set forth an ambitious agenda to extend and enhance our role as Kentucky's land-grant and flagship research university. By focusing on infrastructure growth and improvement; creating opportunities for innovative teaching, learning, and academic excellence; fostering a robust research and creative scholarship enterprise; providing life-saving subspecialty care; empowering communities through service and outreach; and encouraging a transparent and shared dialogue about institutional priorities; the University of Kentucky will ensure a new century of promise for the people we impact.

Founded in 1865 as a land-grant institution adjacent to downtown Lexington, UK is nestled in the scenic heart of the beautiful Bluegrass Region of Kentucky. From its early beginnings, with only 190 students and 10 professors, UK's campus now covers more than 918 acres and is home to more than 30,000 students and approximately 14,500 employees, including more than 2,300 full-time faculty. UK is one of a small number of universities in the United States that has programs in agriculture, engineering, a full complement of health colleges including medicine and pharmacy, law and fine arts on a single campus, leading to groundbreaking discoveries and unique interdisciplinary collaboration. The state's flagship university consists of 17 academic and professional colleges where students can choose from more than 200 majors and degree programs at the undergraduate and graduate levels. The colleges are Agriculture, Food and Environment; Arts and Sciences; Business and Economics; Communication and Information; Dentistry; Design; Education; Engineering; Fine Arts; Graduate School; Health Sciences; Law; Medicine; Nursing; Pharmacy; Public Health; and Social Work. These colleges are supported by a modern research library system.

Research at the University of Kentucky is a dynamic enterprise encompassing both traditional scholarship and emerging technologies, and UK's research faculty, staff and students are establishing UK as one of the nation's most prolific public research universities. UK's research enterprise attracted \$285 million in research grants and contracts from out-of-state sources, which generated a \$580 million impact on the Kentucky economy. Included in this portfolio is \$153 million in federal awards from the National Institutes of Health, non-NIH grants from the Department Health and Human Services, the National Science Foundation, Department of Energy, Department of Agriculture and NASA, among others. The National Science Foundation ranks UK's research enterprise 44th among public institutions.

With more than 50 research centers and institutes, UK researchers are discovering new knowledge, providing a rich training ground for current students and the next generation of researchers, and advancing the economic growth of the Commonwealth of Kentucky. Several centers excel in the services offered to the public. The Gluck Equine Research Center is one of only three facilities of its kind in the world, conducting research in equine diseases.

The Center for Applied Energy Research is pursuing groundbreaking discovery across the energy disciplines. CAER staff are pioneering new ways to sustainably utilize Kentucky natural resources through carbon-capture algae technology, biomass/coal to liquid products and the opening of UK's first LEED-certified research lab to support the development of Kentucky's growing alternative energy industry. Among the brightest examples of UK's investment in transformative research is the Markey Cancer Center. As a center of excellence and distinction at UK, Markey's robust research and clinical enterprise is the cornerstone of our commitment to Kentucky – fundamental to our success in uplifting lives through our endeavors and improving the general health and welfare of our state – burdened by the nation's highest rate of cancer deaths per 100,000 people. In 2013, Markey earned the prestigious National Cancer Institute-designation (NCI) – one of 68 nationally and the only one in Kentucky.

The University of Kentucky was awarded a \$20 million Clinical Translational Sciences Award (CTSA) from the National Institutes of Health (NIH). As one of only 60 institutions with this research distinction, UK was awarded the CTSA for its potential in moving research and discovery in the lab into practical field and community applications. The CTSA and NCI are part of a trifecta of federal research grants that includes an Alzheimer's Disease Center. UK is one of only 22 universities in the country to hold all three premier grants from NIH.

Established in 1957, the medical center at UK is one of the nation's finest academic medical centers and includes the University's clinical enterprise, UK HealthCare. The 569-bed UK Albert B. Chandler Hospital and Kentucky Children's Hospital, along with 256 beds at UK Good Samaritan Hospital, are supported by a growing faculty and staff providing the most advanced subspecialty care for the most critically injured and ill patients throughout the Commonwealth and beyond. Over the last several years, the number of patients served by the medical enterprise has increased from roughly 19,000 discharges to more than 36,000 discharges in 2014.

UK Chandler Hospital includes the only Level 1 Trauma Center for both adult and pediatric patients in Central and Eastern Kentucky. In addition, UK HealthCare recently opened one of the country's largest robotic hybrid operating rooms and the first of its kind in the region. While our new patient care pavilion is the leading healthcare facility for advanced medical procedures in the region, our talented physicians consult with and travel to our network of affiliate hospitals so Kentucky citizens can receive the best health care available close to their home and never need to leave the Bluegrass for complex subspecialty care.

King's Daughters Medical Center based in Ashland Kentucky officially became part of the University of Kentucky. King's Daughters Medical Center serves a 16-county region across Kentucky, Ohio, and West Virginia. Its health system is comprised of two acute-care hospitals totaling 465 licensed beds, more than 50 ambulatory centers and practice locations, a long-term care facility, medical transport company, and six urgent care centers.

UK's agenda remains committed to accelerating the University's movement toward academic excellence in all areas and gain worldwide recognition for its outstanding academic programs, its commitment to students, its investment in pioneering research and discovery, its success in building a diverse community and its engagement with the larger society. It is all part of the University's fulfillment of our promise to Kentucky to position our state as a leader in American prosperity.

## **SUSTAINABILITY**

Sustainability is an institution-wide priority for the University of Kentucky. We strive to ensure that all activities are ecologically sound, socially just, and economically viable, and that they will continue to be so for future generations. This commitment also prioritizes the integration of these principles in curricula, research, athletics, health care, creative works, and outreach. This principled approach to operational practices and intellectual pursuits is intended to prepare students and empower the campus community to support sustainable development in the Commonwealth and beyond. The UK Sustainability Strategic Plan guides these efforts (<https://www.uky.edu/sustainability/sustainability-strategic-plan>).

## **2.4 Supplier Diversity and Procurement**

The University of Kentucky is committed to serve as an advocate for diverse businesses in their efforts to conduct business. Diverse Business Enterprises (DBE) consist of minority, women, disabled, veteran and disabled veteran owned business firms that are at least fifty-one percent owned and operated by an individual(s) of the aforementioned categories. Also included in this category are disabled business enterprises and non-profit work centers for the blind and severely disabled.

The University is committed to increasing the amount of goods and services acquired from businesses owned and controlled by diverse persons to 10% of all procurement expenditures. The University expects its suppliers to support and assist in this effort.

Among the University's goals for DBE participation in procurement are:

- To ensure the absence of barriers that reduce the participation of diverse suppliers
- Educate vendors on "how to" do business with the University
- Support diverse vendors seeking to do business with the University in the areas of goods, services, construction, and other areas of procurement
- Encourage participation of qualified diverse vendors by directing them to agencies that can benefit from their product or service
- Provide resources for diverse vendors
- Sponsor events to assist diverse vendors in becoming active, responsible, and responsive participants in the University's purchasing opportunities

For additional information regarding how diverse suppliers may participate in this Request for Proposal, submit any questions to the Purchasing Officer as indicated in Section 3.2 by the Deadline for Written Questions date.

This Request for Proposal and resulting Contract are subject to provisions of the Kentucky Revised Statutes regarding conflict of interest and the University of Kentucky's Ethical Principles and Code of Conduct ([www.uky.edu/Legal/ethicscode.htm](http://www.uky.edu/Legal/ethicscode.htm)). When submitting and signing a proposal, an offeror is certifying that no actual, apparent or potential conflict of interest exists between the interests of the University and the interests of the offeror. A conflict of interest (whether contractual, financial, organizational or otherwise) exists when any individual, contractor or subcontractor has a direct or indirect interest because of a financial or pecuniary interest, gift or other activities or relationships with other persons (including business, familial or household relationships) and is thus unable to render or is impeded from rendering impartial assistance or advice, has impaired objectivity in performing the proposed work or has an unfair competitive advantage.

Questions concerning this section or interpretation of this section should be directed to the University purchasing officer identified in this RFP.

### **6.25 Personal Service Contract Policies**

Pursuant to the Kentucky Model Procurement Code (Code), the Government Contract Review Committee (GCRC) of the Kentucky General Assembly may establish policies that govern personal service contracts. Under the Code, a personal service contract is an agreement whereby an individual, firm, partnership or corporation is to perform certain services requiring professional skill or professional judgment for a specified period of time at an agreed upon price.

**A. Professional Service Rate Schedules:**

The GCRC has established rate schedules for certain professional services and may impact any contract established under the Code. These rate schedules are located on the GCRC website at the following link: <https://apps.legislature.ky.gov/moreinfo/contracts/homepage.html>. Access/click the dropdown menu within the web page for the rates information.

**B. Invoicing of Personal Service Contracts:**

The Kentucky Model Procurement Code was recently amended to establish conditions for invoicing for fees for personal service contracts. It states, “No payment shall be made on any personal service contract unless the individual, firm, partnership, or corporation awarded the personal service contract submits its invoice on a form established by the committee.” The Government Contract Review Committee has adopted a personal service contract invoice form that must be submitted as a condition of payment. A copy of the form is located on the GCRC website at: <https://apps.legislature.ky.gov/moreinfo/contracts/PSC%20INVOICE%20FORM.pdf>.

The process is electronic and the supplier receives real-time payment notices. Additional information regarding Payment Plus (and enrollment form) can be found at: <https://www.uky.edu/ufs/payment-plus-supplier-enrollment-form>.
2. Payments by check. Payment terms for check payments are Net-30.
