Most recent changes highlighted in yellow

**How To Use This Guide**

This Quick Reference Guide should be a first read for departments to correctly conduct purchases of goods and services. Use the guide to determine the correct purchase method based on the commodity. Commodities are listed alphabetically in the left column. In the event where procurement card is allowed, it is the preferred method per Business Procedures Manual B-3-2-1.

**Key Points To Remember**

**Important - Written Agreements / Signature Authority:** Any transaction that requires a University signature and/or contains supplier Terms and Conditions (i.e., "fine print") must be reviewed and signed by Procurement Services. Departments do not have authority to sign procurement agreements or agree to legal terms and conditions on behalf of the University. Agreements can be sent directly to the Category Specialist responsible for the commodity or email UKPurchasing@uky.edu.

**Capital Equipment:** Defined as any single item that is \$5,000 or greater and will always utilize the Shopping Cart/Requisition process. Capital equipment purchases must have a 55XXXX GL account assignment.

**Independent Contractors:** In accordance with IRS regulations and University policy, any transaction for services directly from an individual must follow the Independent Contractor process. The Worker Status Evaluation Form and Scope of Work Form must be completed and signed by Human Resources-Compensation. Shopping Cart/Requisition is the correct purchase method for any Independent Contractor service purchase; attach the completed and signed forms to the Shopping Cart/Requisition.

**Reminder:** Purchases requiring Shopping Cart/Requisition must be transacted by representatives within Procurement Services with suppliers. Departments **do not** have Delegated Authority to directly transact purchases requiring Shopping Cart/Requisition as the method. Be sure to attach the appropriate documentation (e.g., quote, Independent Contractor forms, etc.) to the Shopping Cart/Requisition.

**TIPS**

A definition/examples column is provided for departments' convenience and to assist in interpreting correct purchases. Examples listed are for reference only and are in no way exhaustive within the commodity.

If you have trouble finding a commodity in the alphabetical listing, try a keyword search using CTRL + F.

If you do not see a commodity that you need to purchase, are unsure what method may be applicable, or have other questions, contact Procurement Services for assistance.
