END OF ADDENDUM

#	Date	From	Question	Responder	Response	Release
1	24-Mar		Explain the timing and reasoning to go from the temp sediment traps on C-10 to the permanent retention basins shown on C-11. At what point does the transition between the 2 sheets happen? Couldn't the permanent retention be installed and then cleaned out at the end of the project rather than building the temp sediment traps and then regrading the entire area?	Bell Engineering	Refer to attached "2406 BP1 Addendum 02_R" for official responses to Bidder Questions from the Design Team.	Addendum #2 - 4/2/25
2	24-Mar		Since the asphalt paving will likely not be done until 2026, can we provide a price that is good through 2025 and then agree that there will be an escalator? We don't know what asphalt will cost in 2026 yet.	Messer	All bidders are to bid the work per the project schedule.	Addendum #2 - 4/2/25
3	24-Mar		Exact same question for the permeable pavers. Can we give a price that is good through 2025 and then agree there will be an escalator?	Messer	All bidders are to bid the work per the project schedule. Also, reference TC01-D-7: "Permeable pavers are excluded."	Addendum #2 - 4/2/25
4	24-Mar		Will you please issue the CAD file for the grading plan only? Please issue it as soon as possible if you are going to – would be very helpful with earthwork take-off accuracy.	OMNI / Bell Engineering / Messer	Yes. Each subcontractor that requests CAD files shall sign OMNI Architect's CAD File Release Form. Subcontractor shall submit CAD file requests to Messer in order to receive CAD File Release Form. CAD files will be provided individually to each bidder that requests and signs the release forms.	Addendum #2 - 4/2/25
5	25-Mar		Are there any restrictions for travelling across the existing box culvert with construction equipment?	Bell Engineering	Refer to attached "2406 BP1 Addendum 02_R" for official responses to Bidder Questions from the Design Team.	Addendum #2 - 4/2/25
6	25-Mar		1. Sheet C-43 shows cross sections for a box culvert cap for approximately 200 linear feet. Where is the plan view that corresponds with this work? 2. Sheet C-42 shows some work and I am wondering where that is shown on a plan view as well?	Bell Engineering	Refer to attached "2406 BP1 Addendum 02_R" for official responses to Bidder Questions from the Design Team.	Addendum #2 - 4/2/25
7	27-Mar		There is not enough information on the plans to quote the WQU. Need the performance spec in order to quote / bid.	Bell Engineering	Refer to attached "2406 BP1 Addendum 02_R" for official responses to Bidder Questions from the Design Team.	Addendum #2 - 4/2/25
8	31-Mar		Do we provide a bid bond?	Messer	Yes.	Addendum #2 - 4/2/25
9	31-Mar		Do we include the cost of a P & P bond in our bid?	Messer	No.	Addendum #2 - 4/2/25

ADDENDUM NUMBER TWO

Bidders shall conform to the following changes, as same shall become binding to the Bid Documents for the purpose of bidding.

QUESTIONS AND CLARIFICATIONS:

1. Reference C-Series Sheets:

Question: Are there any restrictions for travelling across the existing box culvert with construction equipment?

Answer: There are some restrictions. Revised drawings will be submitted in next addendum, and will identify those restrictions.

2. Reference Sheets C-10 and C-11:

Question: Explain the timing and reasoning to go from the temp sediment traps on C-10 to the permanent retention basins shown on C-11. At what point does the transition between the 2 sheets happen? Couldn't the permanent retention be installed and then cleaned out at the end of the project rather than building the temp sediment traps and then regrading the entire area?

Answer: The sediment traps will be eliminated and revised drawings will be issued in the next addendum.

3. Reference Sheets C-42 and C-43:

Question: Sheet C-43 shows cross sections for a box culvert cap for approximately 200 linear feet. Where is the plan view that corresponds with this work? Sheet C-42 shows some work and I am wondering where that is shown on a plan view as well?

Answer: Centerline will be added to sheet C40 and/or C30. Details on sheet C42 are for notes on sheet C40. Additional notes will be added to C40..

4. Reference Sheets C-42 and C-43:

Question: There is not enough information on the plans to quote the WQU. Can performance requirements be provided for reference?

Answer: Performance Criteria is provided in specification section 33 4213 Storm Sewer.

End of Addendum #2. Refer to attachments.

BIDDER'S QUALIFICATIONS

The Commonwealth of Kentucky Model Procurement Code (KRS 45A.080) requires contracts to be awarded, "to the responsive and responsible bidder whose bid offers the best value" to the University of Kentucky. In order to determine if the Bidder has the experience, qualifications, resources and necessary attributes to provide the quality workmanship, materials and management required by the plans and specifications, the Bidder may be required to complete and submit the information requested on the University of Kentucky Contractor Bidder Determination of Responsibility questionnaire. Failure to provide the information requested on the questionnaire or failure to provide any additional submittals or information that may be requested to make this determination may be grounds for a declaration of non-responsibility with respect to the Bidder. A copy of the Contractor Determination of Responsibility questionnaire is available upon request to all Bidders.

TIME LIMIT FOR EXECUTION OF CONTRACT DOCUMENTS

It is further agreed, that in the event this Proposal is accepted by the Owner and the undersigned shall fail to execute the Contract and furnish satisfactory Payment and Performance Bond within ten (10) consecutive calendar days from the date of notification of the award of the Contract, the Owner may at his option, determine that the undersigned has abandoned the Contract and thereupon, the Proposal shall become null and void and the Bid guarantee, check or Bid bond which accompanied it shall be forfeited and become the property of the Owner as liquidated damages for each failure and no protest pursuant to such action will be made. If the Undersigned shall execute the Contract, and furnish satisfactory Payment Bond and Performance Bond, it is understood that the Bid Guarantee or Bid Bond will be returned to the undersigned by the Owner.

UNIT PRICES

NOTE: Unit Prices shall include the furnishing of all labor, materials, supplies and services and shall include all items of cost, overhead and profit for the Contractor and any subcontractor involved, and shall be used uniformly without modifications for either additions or deductions. The Unit Prices as established shall be used to determine the equitable adjustment of the Contract Price in connection with changes, deletions or extra work performed under the Contract and the "Rules of Measurement" set forth in the General Conditions shall govern.

All Bidders will be required to complete and submit the following Unit Prices with the bid.

The apparent low bidder is requested to attend a post bid meeting which will be scheduled at a later date.

ADDENDUM NUMBER TWO

Bidders shall conform to the following changes, as same shall become binding to the Bid Documents for the purpose of bidding.

QUESTIONS AND CLARIFICATIONS:

1. Reference C-Series Sheets:

Question: Are there any restrictions for travelling across the existing box culvert with construction equipment?

Answer: There are some restrictions. Revised drawings will be submitted in next addendum, and will identify those restrictions.

2. Reference Sheets C-10 and C-11:

Question: Explain the timing and reasoning to go from the temp sediment traps on C-10 to the permanent retention basins shown on C-11. At what point does the transition between the 2 sheets happen? Couldn't the permanent retention be installed and then cleaned out at the end of the project rather than building the temp sediment traps and then regrading the entire area?

Answer: The sediment traps will be eliminated and revised drawings will be issued in the next addendum.

3. Reference Sheets C-42 and C-43:

Question: Sheet C-43 shows cross sections for a box culvert cap for approximately 200 linear feet. Where is the plan view that corresponds with this work? Sheet C-42 shows some work and I am wondering where that is shown on a plan view as well?

Answer: Centerline will be added to sheet C40 and/or C30. Details on sheet C42 are for notes on sheet C40. Additional notes will be added to C40..

4. Reference Sheets C-42 and C-43:

Question: There is not enough information on the plans to quote the WQU. Can performance requirements be provided for reference?

Answer: Performance Criteria is provided in specification section 33 4213 Storm Sewer.

End of Addendum #2. Refer to attachments.

BIDDER'S QUALIFICATIONS

The Commonwealth of Kentucky Model Procurement Code (KRS 45A.080) requires contracts to be awarded, "to the responsive and responsible bidder whose bid offers the best value" to the University of Kentucky. In order to determine if the Bidder has the experience, qualifications, resources and necessary attributes to provide the quality workmanship, materials and management required by the plans and specifications, the Bidder may be required to complete and submit the information requested on the University of Kentucky Contractor Bidder Determination of Responsibility questionnaire. Failure to provide the information requested on the questionnaire or failure to provide any additional submittals or information that may be requested to make this determination may be grounds for a declaration of non-responsibility with respect to the Bidder. A copy of the Contractor Determination of Responsibility questionnaire is available upon request to all Bidders.

TIME LIMIT FOR EXECUTION OF CONTRACT DOCUMENTS

It is further agreed, that in the event this Proposal is accepted by the Owner and the undersigned shall fail to execute the Contract and furnish satisfactory Payment and Performance Bond within ten (10) consecutive calendar days from the date of notification of the award of the Contract, the Owner may at his option, determine that the undersigned has abandoned the Contract and thereupon, the Proposal shall become null and void and the Bid guarantee, check or Bid bond which accompanied it shall be forfeited and become the property of the Owner as liquidated damages for each failure and no protest pursuant to such action will be made. If the Undersigned shall execute the Contract, and furnish satisfactory Payment Bond and Performance Bond, it is understood that the Bid Guarantee or Bid Bond will be returned to the undersigned by the Owner.

UNIT PRICES

NOTE: Unit Prices shall include the furnishing of all labor, materials, supplies and services and shall include all items of cost, overhead and profit for the Contractor and any subcontractor involved, and shall be used uniformly without modifications for either additions or deductions. The Unit Prices as established shall be used to determine the equitable adjustment of the Contract Price in connection with changes, deletions or extra work performed under the Contract and the "Rules of Measurement" set forth in the General Conditions shall govern.

All Bidders will be required to complete and submit the following Unit Prices with the bid.

The apparent low bidder is requested to attend a post bid meeting which will be scheduled at a later date.
