2.0 GENERAL OVERVIEW

2.1 Intent and Scope

The University of Kentucky is issuing this Request for Proposal (RFP) to solicit proposals from qualified, experienced, financially sound, and responsible firms to establish a price contract for the provision of industrial uniforms. While this contract primarily supports the Facilities Management departments located in Lexington, Kentucky, it is anticipated that the resulting agreement may be utilized by other University departments as well as UK King's Daughters and UK St. Claire Hospitals.

The primary departments currently served include:

- **Campus Facilities:** Approximately 450 uniformed employees
- **Medical Center Facilities:** Approximately 140 uniformed employees
- **College of Agriculture, Warehouse and Housing:** Approximately 120 uniformed employees combined

The uniformed workforce comprises both male and female employees with diverse statures and body types. The University's uniform program supports a wide range of roles including, but not limited to, groundskeepers, custodians, painters, electricians, farmers, and drivers.

Uniform requirements typically include five (5) shirts and five (5) pairs of pants per employee. Shirt colors include light blue for most employees and white for supervisory staff. Pants are navy blue. Styles and specifications may vary depending on job responsibilities.

Offerors should also offer the rental of fire rated options for the University employees that need such coverage.

While the University previously conducted a full-scale annual fitting for departments such as Campus Facilities and Medical Center Facilities, this is no longer standard practice. Uniform orders are now mainly placed on an as-needed basis, guided by annual per diem allowances. Offerors should be prepared to accommodate ongoing, individualized ordering throughout the year, including for new hires or special circumstances.

The University typically places one bulk order per department annually, with supplemental orders occurring as needed.

Further detail on scope and technical requirements can be found in Section 7.0 of this RFP.

2.2 University Information

Upon his arrival in 2011, President Eli Capilouto set an ambitious agenda to extend and enhance our role as Kentucky's land-grant and flagship research university. By focusing on infrastructure growth and improvement; creating opportunities for innovative teaching, learning and academic excellence; fostering a robust research enterprise; providing life-saving subspecialty care; empowering communities through service and outreach; and encouraging a transparent and shared dialogue about institutional priorities; the University of Kentucky will help ensure a Kentucky tomorrow that is healthier, wealthier and wiser than it is today.

Our mission is to advance Kentucky.

Founded in 1865 as a land-grant institution adjacent to downtown Lexington, UK is nestled in the scenic heart of the beautiful Bluegrass region of Kentucky. From its early beginnings, with only 190 students and 10 professors, UK's campus now covers more than 900 acres. The university enrolled more than 32,000 students in Fall 2022 and has approximately 25,000 employees, including nearly 3,000 full-time faculty.

UK is one of a small number of universities in the United States that has programs in agriculture, engineering, law, fine arts and a full complement of health colleges including medicine and pharmacy, on a single campus alongside an academic health system, leading to groundbreaking discoveries and unique interdisciplinary collaboration.

The state's flagship university consists of 18 academic and professional colleges where students can choose from more than 200 majors and degree programs at the undergraduate and graduate levels. The colleges are Agriculture, Food and Environment; Arts and Sciences; Business and Economics; Communication and Information; Dentistry; Design; Education; Engineering; Fine Arts; Graduate School; Health Sciences; Honors; Law; Medicine; Nursing; Pharmacy; Public Health; and Social Work. These colleges are supported by a modern research library system.

Research at the University of Kentucky is a dynamic enterprise encompassing both traditional scholarship and emerging technologies. UK's research faculty, staff and students are establishing UK as one of the nation's most prolific public research universities. UK researchers were awarded more than \$452.9 million in extramural grant and contract funding in fiscal year 2022. Fifty-six percent of this funding comes from agencies in the federal government (\$256 million) such as the National Institutes of Health, National Science Foundation, Department of Energy, Department of Defense and numerous other federal, state and industry sponsors. Expenditures from research and development (R&D) activities at the university generate more than \$772 million in economic development across the Commonwealth of Kentucky and support more than 4,395 jobs.

With more than 70 research centers and institutes, UK researchers are discovering new knowledge, providing a rich training ground for current students and the next generation of researchers and advancing the economic growth of the Commonwealth of Kentucky. Several centers excel in the services offered to the public. The Gluck Equine Research Center is one of only three facilities of its kind in the world, conducting equine disease research.

The Center for Applied Energy Research (CAER) is internationally recognized for research in algae for carbon dioxide clean up, carbon materials, concrete and cement, emissions control in utilities, energy policy, fuels research, hydrogen, materials characterization and plant optimization.

Among the brightest examples of UK's investment in transformative research is the Markey Cancer Center. As a center of excellence and distinction at UK, Markey's robust research and clinical enterprise is the cornerstone of our commitment to Kentucky – fundamental to our success in uplifting lives through our endeavors and improving the general health and welfare of our state – burdened by the nation's highest rate of cancer deaths per 100,000 people. In 2013, Markey earned the prestigious National Cancer Institute-designation (NCI) – one of 68 nationally and the only one in Kentucky. The designation was renewed in 2018.

Both CAER and Markey are cornerstones of seven Research Priority Areas (RPAs) at the University of Kentucky. These areas — chosen based on local relevance, existing funding strength, sustainability and disciplinary scholarly diversity — focus UK's top research talent on the most pressing challenges confronting our state.

The University of Kentucky is the recipient of a Clinical Translational Sciences Award (CTSA) from the National Institutes of Health (NIH). As one of only 60 institutions with this research distinction, UK was awarded the CTSA for its potential in moving research and discovery in the lab into practical field and community applications. The CTSA and NCI are part of a trifecta of federal research grants that includes an Alzheimer's Disease Center. UK is one of only 29 universities in the country to hold all three premier grants from NIH.

Established in 1957, the medical center at UK is one of the nation's finest academic medical centers and includes the university's clinical enterprise, UK HealthCare. Licensed for 965 beds across UK Albert B. Chandler Hospital, Kentucky Children's Hospital and UK Good Samaritan Hospital, the system is supported by a growing faculty and staff providing the most advanced subspecialty care for the most critically injured and ill patients throughout the Commonwealth and beyond. Since 2014, the number of patients served by the medical enterprise has nearly doubled, with more than 38,000 discharges in 2022.

UK Chandler Hospital includes the only Level 1 Trauma Center for both adult and pediatric patients in Central and Eastern Kentucky. In addition, UK HealthCare recently opened one of the country's largest robotic hybrid operating rooms and the first of its kind in the region. While the new patient care pavilion is the leading health care facility for advanced medical procedures in the region, our talented physicians consult with and travel to our network of affiliate hospitals so Kentuckians can receive the best health care available close to their home and never need to leave the Bluegrass for complex subspecialty care.

As of December 1, 2022, King's Daughters Medical Center, based in Ashland, Kentucky, officially became part of the University of Kentucky. King's Daughters Medical Center serves a 16-county region across Kentucky, Ohio and West Virginia. Its health system is composed of two acute-care hospitals totaling 465 licensed beds, more than 50 ambulatory centers and practice locations, a long-term care facility, medical transport company and six urgent care centers.

The University of Kentucky Board of Trustees on Friday April 26, 2024 approved plans to proceed with the acquisition of St. Claire HealthCare in Morehead. The move for St. Claire to become part of UK will expand clinical and academic programs as well as result in greater access to high-quality patient care for more Kentuckians. St. Claire can continue its 60-year tradition of serving Northeastern Kentucky for decades to come, operating under the name UK St. Claire. St. Claire HealthCare is one of the largest employers in the region, with over 1,200 staff members, including a growing medical staff of more than 125 physicians and nearly 70 advanced practice professionals representing more than 30 medical specialties. It includes the largest rural hospital in Northeastern Kentucky, seven primary care locations located within five counties, a multi-specialty medical pavilion, two urgent care centers, a pediatrics clinic, as well as a retail pharmacy, counseling center, medical equipment and supply store, and an outpatient center. Additionally, St. Claire HealthCare provides home health and hospice services in eight counties within its 11-county service region. The acquisition was finalized on July 1, 2024.

UK's agenda remains committed to accelerating the university's academic excellence in all areas and gaining worldwide recognition for its outstanding academic programs, its commitment to students, its investment in pioneering research and discovery, its success in building a diverse community and its engagement with the larger society. This commitment is all part of the university's mission as a 21st century flagship and land-grant research university. From its Nobel Laureates to cutting-edge work in addressing health disparities, and from the artistic wonders that

stir souls to our scientific creativity that inspires minds, UK seeks a brighter future through the contributions of our faculty, staff, students and alumni.

We are the University of Kentucky. We are committed to advancing Kentucky in everything that we do.

SUSTAINABILITY

Sustainability is an institution-wide priority for the University of Kentucky. We strive to ensure that all activities are ecologically sound, socially just, and economically viable, and that they will continue to be so for future generations. This commitment also prioritizes the integration of these principles in curricula, research, athletics, health care, creative works, and outreach. This principled approach to operational practices and intellectual pursuits is intended to prepare students and empower the campus community to support sustainable development in the Commonwealth and beyond. The UK Sustainability Strategic Plan guides these efforts (<https://www.uky.edu/sustainability/sustainability-strategic-plan>).

2.3 Economic Engagement and Procurement

The University of Kentucky is committed to serving as an advocate for Kentucky located businesses as part of its on-going workforce development and economic development efforts.

The University desires to increase the amount of goods and services acquired from Kentucky located businesses. The University encourages its suppliers to support and assist in this effort.

The University's goals for increasing participation in procurement projects include but are not limited to the following:

- To ensure the absence of barriers that reduce participation.
- Educate vendors on "how to do business" with the University.
- Support Kentucky located vendors seeking to do business with the University in the areas of goods, services, construction, and other areas of procurement.
- Encourage participation of qualified Kentucky located vendors by directing them to agencies that can benefit from their product or service.
- Provide resources for Kentucky located vendors.

B. Measurement/Sizing Services

Note: Sizing practices may vary. Some departments no longer conduct bulk fittings. Orders are often placed individually, based on as-needed sizing or per diem allocations.

For departments continuing annual fittings, the contractor should provide on-site measurement services. A minimum of three (3) days and one (1) evening session should be scheduled in coordination with University representatives. Extended hours or additional sessions may be required to accommodate all shifts.

Tentative fitting hours:

Day shift: 7:30 a.m. – 3:00 p.m.

Evening shift: 9:00 p.m. – 12:00 a.m.

Contractor responsibilities:

- Accurately measure employees and take orders during the fitting sessions.
- Complete minor alterations (e.g., hemming) prior to shipping.
- Ensure all items are delivered per specifications. Erroneous or ill-fitting items are the contractor's responsibility and will not be accepted.
- Orders should be approved by the UK Facilities business officer (not the employee), and a copy of the order should be left with them.
- For individual (non-bulk) orders throughout the year (e.g., new hires), the contractor should respond to a sizing appointment request within two (2) weeks. Failure to attend two consecutive appointments may result in contract termination. All travel costs for sizing are the contractor's responsibility.

C. Shipping Instructions

All orders should be shipped in accordance with the specifications on the approved order sheet. Each employee's garments should be shipped as a complete package, labeled with the employee's name, department, and contents. Packages should be shipped directly to the designated department (e.g., Grounds, Paint). Standard-size orders should be delivered within two (2) months of order placement. Delivery timelines for irregular or oversized items should be quoted and agreed upon at the time of order.

D. Embroidery/Patch Requirements

The contractor is responsible for applying a "UK Facilities" patch or embroidered logo to all applicable uniform shirts and blouses. The final design will be determined after contract award.

E. Invoicing and Payment

Invoices should include:

- Employee name
- Department
- Itemized list of items, quantities, unit prices, and totals

Invoices may be continuous or individual and should be organized by department.

F. Vendor Representation

Offeror should maintain sufficient representation to manage the University's account, including regular contact with the Purchasing Division and relevant departments. The representative will be responsible for resolving any order discrepancies, invoicing issues, or service concerns.

G. Fanatics Partners Licensing Requirement

The University of Kentucky's logos and insignias are protected through a licensing agreement with Fanatics. All items bearing University marks—even those for internal use—should be produced by an officially licensed vendor and approved by the University's licensing office. These items are not subject to royalties if not intended for resale.

H. Irregular/Oversized Items

Orders containing irregular or oversized items should be clearly identified and approved by the appropriate UK Facilities business officer prior to processing.
