2.0 GENERAL OVERVIEW

2.1 Intent and Scope

The University of Kentucky is soliciting proposals from qualified consulting firms to conduct a comprehensive philanthropic feasibility study in support of the proposed expansion of UK HealthCare's Albert B. Chandler Hospital.

The purpose of this study is to evaluate the feasibility of conducting a standalone capital campaign with a preliminary working goal of \$300 million to support the Chandler Hospital Expansion Project. The study will provide an independent, objective assessment of philanthropic capacity, campaign readiness, and strategic considerations necessary to determine whether a campaign of this magnitude is achievable within the projected timeline.

The selected firm will assess:

- Campaign goal viability at the \$300 million level
- Major gift capacity and pipeline strength
- Lead gift potential
- Top 100 donor analysis
- Corporate and foundation engagement potential
- Grateful patient philanthropy opportunity
- Internal readiness factors including staffing and structure of the UK Healthcare Philanthropy Office.
- Risk considerations, including donor fatigue and concurrent capital initiatives
- Development of a preliminary gift range chart based on determined capacity
- Development of a draft campaign timeline

The feasibility study will inform leadership decision-making regarding initiation of a quiet phase campaign. The engagement must be completed no later than December 2026.

All aspects of the study shall be conducted in strict confidence.

Deliverables shall include:

- Comprehensive written report
- Executive summary
- Gift range chart aligned to a \$300 million campaign model
- Draft campaign timeline
- Formal in-person presentation to designated University leadership in Lexington, Kentucky
- Personnel who will be delivering the scope of work should be part of the team who delivers the initial presentation as part of the RFP Process.

All services shall be performed in strict confidence.

2.2 Background Information

The proposed expansion of UK HealthCare's Albert B. Chandler Hospital represents the largest capital project in the history of the University of Kentucky and one of the most significant healthcare infrastructure investments in the Commonwealth of Kentucky.

The Chandler Expansion is a multi-phase initiative currently estimated at approximately \$3.3 billion. The project will expand and modernize inpatient and clinical capacity on the Chandler campus in Lexington, Kentucky. Upon completion, total licensed bed capacity is projected to increase to approximately 1,400 beds and the project will add approximately 2,077,000 square feet of new and renovated space.

The expansion includes development of a new patient care tower and associated clinical, diagnostic, procedural, and support services. Phased occupancy is anticipated to begin in 2032.

The project responds to sustained inpatient growth, increasing demand for advanced subspecialty care, and aging infrastructure challenges within the existing facilities.

The University is evaluating the potential role of philanthropy in supporting this expansion. Potential naming opportunities are currently being developed and may include pavilion naming, tower naming, floor naming, programmatic naming, and departmental naming, subject to institutional approval.

The University is currently engaged in multiple health-related capital initiatives that may overlap with the proposed Chandler campaign. The feasibility study must therefore evaluate philanthropic capacity within an environment where donor fatigue and campaign saturation may be considerations.

The study and all findings shall remain strictly confidential.

2.3 University Information

Upon his arrival in 2011, President Eli Capilouto set an ambitious agenda to extend and enhance our role as Kentucky's land-grant and flagship research university. By focusing on infrastructure growth and improvement; creating opportunities for innovative teaching, learning and academic excellence; fostering a robust research enterprise; providing life-saving subspecialty care; empowering communities through service and outreach; and encouraging a transparent and shared dialogue about institutional priorities; the University of Kentucky will help ensure a Kentucky tomorrow that is healthier, wealthier and wiser than it is today.

Our mission — 160 years strong — is to advance Kentucky in everything we do.

Founded in 1865 as a land-grant institution adjacent to downtown Lexington, UK is nestled in the scenic heart of the beautiful Bluegrass region of Kentucky. From its early beginnings, with only 190 students and 10 professors, UK's campus now covers more than 900 acres. In Fall 2025, the university enrolled nearly 39,000 total students, including another record-setting first-year class of more than 7,000 students — for the first time, more than 4,000 are Kentuckians and nearly 1,900 are first generation. The institution now employs approximately 33,000 employees, including nearly 3,300 full-time faculty.

UK is just one of eight universities in the United States that has programs in agriculture, engineering, law, fine arts and a full complement of health colleges including medicine and pharmacy, on a single campus alongside an academic health system, leading to groundbreaking discoveries and unique interdisciplinary collaboration.

The state's flagship university consists of 18 academic and professional colleges where students can choose from more than 200 majors and degree programs at the undergraduate and graduate levels. The colleges are Agriculture, Food and Environment; Arts and Sciences; Business and Economics; Communication and Information; Dentistry; Design; Education; Engineering; Fine Arts; Graduate School; Health Sciences; Honors; Law; Medicine; Nursing; Pharmacy; Public Health; and Social Work. These colleges are supported by a modern research library system.

Research at the University of Kentucky is a dynamic enterprise encompassing both traditional scholarship and emerging technologies. UK's research faculty, staff and students are establishing UK as one of the nation's most prolific public research universities. UK researchers were awarded \$496.9 million in extramural grant and contract funding in fiscal year 2025. Fifty-one percent of this funding comes from agencies in the federal government (\$255.3 million) such as the National Institutes of Health, National Science Foundation, Department of Energy, Department of Defense and numerous other federal sponsors. In fiscal year 2024, expenditures from research and development (R&D) activities at the university generated \$937 million in economic activity across the Commonwealth of Kentucky and supported 4,712 jobs.

With more than 70 research centers and institutes, UK researchers are discovering new knowledge, providing a rich training ground for current students and the next generation of researchers and advancing the economic growth of the Commonwealth of Kentucky. Several centers excel in the services offered to the public. The Gluck Equine Research Center is one of only three facilities of its kind in the world, conducting equine disease research.

The Center for Applied Energy Research (CAER) is internationally recognized for research in carbon fibers, rare earth metals, graphite, concrete and cement, energy policy, fuels research, hydrogen and materials characterization.

Among the brightest examples of UK's investment in transformative research is the Markey Cancer Center. As a center of excellence and distinction at UK, Markey's robust research and clinical enterprise is the cornerstone of our commitment to Kentucky — fundamental to our success in uplifting lives through our endeavors and improving the general health and welfare of our state — burdened by the nation's highest rate of cancer deaths per 100,000 people. In 2013, Markey earned the prestigious National Cancer Institute-designation (NCI) — one of 68 nationally and the only one in Kentucky. The designation was renewed in 2018 and 2023.

The University of Kentucky is the recipient of a Clinical and Translational Science Award (CTSA) from the National Institutes of Health (NIH). As one of only 60 institutions with this research distinction, UK was awarded the CTSA for its potential in moving research and discovery in the lab into practical field and community applications. The CTSA and NCI are part of a trifecta of federal research grants that includes an Alzheimer's Disease Research Center. UK is one of only 29 universities in the country to hold all three premier grants from NIH.

Established in 1957, the medical center at UK is one of the nation's finest academic medical centers and includes the university's clinical enterprise, UK HealthCare. Licensed for 1,150 beds across UK Albert B. Chandler Hospital, Golisano Children's at UK and UK Good Samaritan Hospital, the system is supported by a growing faculty and staff providing the most advanced subspecialty care for the most critically injured and ill patients throughout the Commonwealth and beyond.

UK Chandler Hospital includes the only Level 1 Trauma Center for adult patients in Central and Eastern Kentucky. In addition, UK HealthCare recently opened one of the country's largest robotic hybrid operating rooms and the first of its kind in the region. Our talented physicians consult with and travel to our network of affiliate hospitals so Kentuckians can receive the best health care available close to their homes and never need to leave the Bluegrass for complex subspecialty care.

As of December 1, 2022, King's Daughters Medical Center, based in Ashland, Kentucky, officially became part of the University of Kentucky. UK King's Daughters serves a 16-county region across Kentucky, Ohio and West Virginia. Its health system includes two hospitals totaling 455 licensed beds, more than 80 ambulatory centers and practice locations, a long-term care facility, medical transport company and eight urgent care centers.

The University of Kentucky Board of Trustees on Friday, April 26, 2024, approved plans to proceed with the acquisition of St. Claire HealthCare in Morehead. The move for St. Claire to become part of UK expanded clinical and academic programs as well as resulted in greater access to high-quality patient care for more Kentuckians. UK St. Claire is one of the largest employers in the region, with over 1,600 staff members, including a growing medical staff of more than 200 physicians and more than 100 advanced practice professionals representing more than 35 medical specialties. It includes the largest rural hospital in Northeastern Kentucky, seven primary care locations located within five counties, a multispecialty medical pavilion, two urgent care centers, a pediatrics clinic, as well as a retail pharmacy, counseling center, medical equipment and supply store and an outpatient center. Additionally, UK St. Claire provides home health and hospice services in eight counties within its 11-county service region. The acquisition was finalized on July 1, 2024.

In fiscal year 2024, UK HealthCare's six owned hospitals totaled more than 1,700 licensed beds, saw nearly three million ambulatory visits and discharged approximately 71,000 patients.

Also in October 2024, UK's Board of Trustees issued a bold charge: to unite the University of Kentucky's research, service and learning capabilities with partners to co-create solutions that expand opportunity, strengthen communities and improve well-being across Kentucky. That charge became the Advancing Kentucky Together (AKT) Network — a statewide partnership connecting organizations that share one vision: to ensure a Commonwealth where every Kentuckian has access to quality care, strong education, meaningful work and a connected community.

Through the AKT Network, the university and its partners are aligning ideas, resources and expertise to improve lives in every region of the state across four main pillars: health care access and innovation, education and opportunity pathways, workforce and economic development and land-grant and community engagement. So far, eight partners have formally joined the network, including two existing internal strengths — UK HealthCare's Healthy Kentucky Initiative and UK's Economic Development Collaborative's OneUK — as well as the first academic partner and inaugural major corporate partner.

From its Nobel Laureates to cutting-edge work in addressing health disparities, and from the artistic wonders that stir souls to our scientific creativity that inspires minds, UK seeks a brighter future through the contributions of our faculty, staff, students and alumni.

We are the University of Kentucky. We are committed to advancing Kentucky in everything that we do.

More information about UK can be found at this [this website](#).

SUSTAINABILITY

Sustainability is an institution-wide priority for the University of Kentucky. We strive to ensure that all activities are ecologically sound, socially just, and economically viable, and that they will continue to be so for future generations. This commitment also prioritizes the integration of these principles in curricula, research, athletics, health care, creative works, and outreach. This principled approach to operational practices and intellectual pursuits is intended to prepare students and empower the campus community to support sustainable development in the Commonwealth and beyond. The UK Sustainability Strategic Plan guides these efforts (<https://www.uky.edu/sustainability/sustainability-strategic-plan>).

2.4 Economic Engagement and Procurement

The University of Kentucky is committed to serving as an advocate for Kentucky located businesses as part of its on-going workforce development and economic development efforts.

The University desires to increase the amount of goods and services acquired from Kentucky located businesses. The University encourages its suppliers to support and assist in this effort.

The University's goals for increasing participation in procurement projects include but are not limited to the following:

- To ensure the absence of barriers that reduce participation.
- Educate vendors on "how to do business" with the University.
- Support Kentucky located vendors seeking to do business with the University in the areas of goods, services, construction, and other areas of procurement.
- Encourage participation of qualified Kentucky located vendors by directing them to agencies that can benefit from their product or service.
- Provide resources for Kentucky located vendors.
- Sponsor events to assist Kentucky located vendors in becoming active, responsible, and responsive participants in the University's purchasing opportunities.

For additional information regarding how Kentucky located suppliers may participate in this Request for Proposal, submit any questions to the Procurement Officer as indicated in Section 3.2 by the Deadline for Written Questions date.

6.11 Termination for Non-Performance

Default

The University may terminate the resulting contract for non-performance, as determined by the University, for such causes as:

In the event of any such involuntary bankruptcy proceeding being instituted against the Contractor, the fact of such an involuntary petition being filed shall not be considered an event of default until sixty (60) days after filing of said petition in order that Contractor might during that sixty (60) day period have the opportunity to seek dismissal of the involuntary petition or otherwise cure said potential default; or

- Making a general assignment for the benefit of its creditors, or taking the benefit of any insolvency act, or if a permanent receiver or trustee in bankruptcy shall be appointed for the Contractor.

Demand for Assurances

In the event the University has reason to believe Contractor will be unable to perform under the Contract, it may make a demand for reasonable assurances that Contractor will be able to timely perform all obligations under the Contract. If Contractor is unable to provide such adequate assurances, then such failure may be an event of default and grounds for termination of the Contract.

Notification

The University will provide ten (10) calendar days written notice of default. Unless arrangements are made to correct the non-performance issues to the University's satisfaction within ten (10) calendar days, the University may terminate the contract by giving forty-five (45) days notice, by registered or certified mail, of its intent to cancel this contract.

6.12 Funding Out

The University may terminate this contract if funds are not appropriated or are not otherwise available for the purpose of making payments without incurring any obligation for payment after the date of termination, regardless of the terms of the contract. Any other taxes levied upon this contract, the transaction or the equipment or services delivered pursuant hereto shall be the responsibility of the contractor.

The contractor will be required to accept liability for payment of all payroll taxes or deductions required by local and federal law including (but not limited to) old age pension, social security or annuities.

6.17 Royalties, Patents, Copyrights and Trademarks

The Contractor shall pay all applicable royalties and license fees. If a particular process, products or device is specified in the contract documents and it is known to be subject to patent rights or copyrights, the existence of such rights shall be disclosed in the contract documents and the Contractor is responsible for payment of all associated royalties. To the fullest extent permitted by law the Contractor shall indemnify, hold the University harmless, and defend all suits, claims, losses, damages or liability resulting from any infringement of patent, copyright, and trademark rights resulting from the incorporation in the Work or device specified in the Contract Documents.

Unless provided otherwise in the contract, the Contractor shall not use the University's name nor any of its trademarks or copyrights, although it may state that it has a Contract with the University.

6.18 Indemnification

This clause shall survive termination for as long as necessary to protect the University.

It is the intent of the University to award a contract to the qualified offeror whose offer, conforming to the conditions and requirements of the RFP, is determined to be the most advantageous to the University, cost and other factors considered.

Notwithstanding the above, this RFP does not commit the University to award a contract from this solicitation. The University reserves the right to reject any or all offers and to waive formalities and minor irregularities in the proposal received.

6.21 Reciprocal Preference

In accordance with KRS 45A.494, a resident offeror of the Commonwealth of Kentucky shall be given a preference against a nonresident offeror. In evaluating proposals, the University will apply a reciprocal preference against an offeror submitting a proposal from a state that grants residency preference equal to the preference given by the state of the nonresident offeror. Residency and non-residency shall be defined in accordance with KRS 45A.494(2) and 45A.494(3), respectively. Any offeror claiming Kentucky residency status shall submit with its proposal a notarized affidavit affirming that it meets the criteria as set forth in the above reference statute.

The University recognizes an offeror's possible interest in preserving selected information and data included in the proposal; however, the University must treat such information and data as required by the Kentucky Open Records Act, KRS 61.870, et seq.

Information areas which normally might be considered proprietary, and therefore confidential, shall be limited to individual personnel data, customer references, formulae and company financial audits which, if disclosed, would permit an unfair advantage to competitors. If a proposal contains information in these areas and the offeror declares them to be proprietary in nature and not available for public disclosure, the offeror should declare in the Transmittal Letter the inclusion of proprietary information and shall noticeably label as confidential or proprietary each sheet containing such information. Proposals containing information declared by the offeror to be proprietary or confidential, either wholly or in part, outside the areas listed above may be deemed non-responsive and may be rejected.

The University's General Counsel shall review each offeror's information claimed to be confidential and, in consultation with the offeror (if needed), make a final determination as to whether or not the confidential or proprietary nature of the information or data complies with the Kentucky Open Records Act.

6.24 Conflict of Interest

This Request for Proposal and resulting Contract are subject to provisions of the Kentucky Revised Statutes regarding conflict of interest and the University of Kentucky's Ethical Principles and Code of Conduct (www.uky.edu/Legal/ethicscode.htm). When submitting and signing a proposal, an offeror certifies that no actual, apparent or potential conflict of interest exists between the interests of the University and the interests of the offeror. A conflict of interest (whether contractual, financial, organizational or otherwise) exists when any individual, contractor or subcontractor has a direct or indirect interest because of a financial or pecuniary interest, gift or other activities or relationships with other persons (including business, familial or household relationships) and is thus unable to render or is impeded from rendering impartial assistance or advice, has impaired objectivity in performing the proposed work or has an unfair competitive advantage.

Questions concerning this section or interpretation of this section should be directed to the University purchasing officer identified in this RFP.

6.25 Personal Service Contract Policies

Pursuant to the Kentucky Model Procurement Code (Code), the Government Contract Review Committee (GCRC) of the Kentucky General Assembly may establish policies that govern personal service contracts. Under the Code, a personal service contract is an agreement whereby an

individual, firm, partnership or corporation is to perform certain services requiring professional skill or professional judgment for a specified period of time at an agreed upon price.

A. Professional Service Rate Schedules:

The GCRC has established rate schedules for certain professional services and may impact any contract established under the Code. These rate schedules are located on the GCRC website at the following link: <https://apps.legislature.ky.gov/moreinfo/contracts/homepage.html>. Access/click the dropdown menu within the web page for the rates information.

B. Invoicing of Personal Service Contracts:

The Kentucky Model Procurement Code was recently amended to establish conditions for invoicing fees for personal service contracts. It states, “No payment shall be made on any personal service contract unless the individual, firm, partnership, or corporation awarded the personal service contract submits its invoice on a form established by the committee.” The Government Contract Review Committee has adopted a personal service contract invoice form that must be submitted as a condition of payment. A copy of the form is located on the GCRC website at: <https://apps.legislature.ky.gov/moreinfo/contracts/PSC%20INVOICE%20FORM.pdf>.

6.26 Copyright Ownership and Title to Designs and Copy

The contractor and University intend this RFP to result in a contract for services, and both consider the products and results of the services to be rendered by the contractor hereunder to be a work made for hire. The contractor acknowledges and agrees that the work and all rights therein, including (without limitation) copyright, belong to and shall be the sole and exclusive property of the University. For any work that is not considered a work made for hire under applicable law, title and copyright ownership shall be assigned to the University.

Title to all dies, type, cuts, artwork, negatives, positives, color separations, progressive proofs, plates, copy and any other requirement not stated herein required for completion of the finished product for use in connection with any University job shall be the property of and owned by the University. Such items shall be returned to the appropriate department upon completion and/or delivery of work unless otherwise authorized by the University. In the event that time of return is not specified, the contractor shall return all such items to the appropriate University department within one week of delivery.

6.27 University Brand Standards

The contractor must adhere to all University of Kentucky Brand Standards. University Brand Standards are maintained by the University Public Relations Office (UKPR) and can be viewed at <https://brand.uky.edu/>. Non-adherence to the standards can have a penalty up to and including contract cancellation. Only the UKPR Director or designee can approve exceptions to the University standards.

Graphics standards for the UK HealthCare areas are governed by UK HealthCare Clinical Enterprise

Graphic Standards, found at: <https://ukhealthcare.uky.edu/staff/brand-strategy>.

For purposes of clarity, updated regulations under Section 508 standards now incorporate WCAG 2.1 Level AA, and for purposes of this agreement WCAG 2.1 Level AA compliance is

expressly included. Contractor agrees to promptly respond to, resolve and remediate any complaint regarding accessibility of products or services not in compliance with Section 508 and WCAG 2.1 Level AA in a timely manner and provide an updated version to

University at no cost. If deficiencies are identified, University reserves the right to request from Contractor, a timeline by which accessibility standards will be incorporated into the products or services provided by Contractor and shall provide such a timeline within a commercially reasonable duration of time. Failure to comply with these requirements shall constitute a material breach of this Agreement and shall be grounds for termination of this Agreement.

Where any customized web services are provided, Contractor represents that it has reviewed the University's Web Policy and all products or services will comply with its published standards.

Contractor will provide University with a current Voluntary Product Accessibility Template (VPAT) for any deliverable(s). If none is available, Vendor will provide sufficient information to reasonably assure the University that the products or services are fully compliant with current requirements.

6.28 Printing Statutes

The purchase of printing services for all state agencies is governed by Chapter 57 of the Kentucky Revised Statutes. Specifically, all printing must be awarded to the lowest responsive bidder and approved by the Governor of Kentucky. In compliance with these statutes, all printing must be provided by a contract established by Procurement Services.

6.29 Payment Terms

The University adheres to a strategic approach regarding payables management based on risk minimization, processing costs, and industry best practices. As such, suppliers and individuals doing business with the University will be paid based on the following protocol:

1. The University utilizes Payment Plus (e-payables) as its primary default form of payment. By enrolling in Payment Plus, suppliers can receive payments immediately (all invoices will be paid immediately upon confirmation of goods receipt and invoice). The process is electronic and the supplier receives real-time payment notices. Additional information regarding Payment Plus (and enrollment form) can be found at: <https://www.uky.edu/ufs/payment-plus-supplier-enrollment-form>.
2. Payments by check. Payment terms for check payments are Net-30.
3. Individuals receiving payments from the University that require ACH direct payments will only be processed under special circumstances as approved by the Controller's office. Payment terms for ACH are Net-15.

7.0 FINANCIAL OFFER SUMMARY

Offerors are to provide a fixed price for the services offered.

Any ideas or offers submitted are purely optional and will not be determinative of the award.
