2.0 GENERAL OVERVIEW

2.1 Intent and Scope

The University of Kentucky desires the services of an experienced and highly qualified construction management firm to provide "FULL SERVICE" construction management on the proposed project. The Construction Manager (CM) selected will become a responsible, cooperative and contributing member of the Owner's professional team for the design and construction of the project. The Construction Manager (CM) will provide assistance and advice and provide management services to the Owner and design consultants to ensure the project is completed within defined budget, program and schedule.

The total scope of this project is currently **\$80,000,000** with a total maximum construction budget of approximately **\$60,000,000**, to include costs for Construction Management Services as well as for the award of trade contracts. The contract established for construction management services will be of a pure agency relationship through Phase 4 Bidding, and then convert to a "LUMP SUM, AT RISK" contract. Initial contract award will be for preconstruction services. University of Kentucky Board of Trustees approval will be required before moving into construction.

The Construction Manager (CM) will be allowed to self-perform work or bid on any of the proposed work categories. The Construction Manager will hold all construction contracts.

The CM should break the trade packages down such that there are no fewer than ten (10) trade contracts.

The Scope of Services is further defined in Section 7.0 of this Request for Proposal (RFP).

2.2 Background Information

The University of Kentucky's Carol Martin Gatton Business and Economics Building originally opened in 1963 as the University's Commerce Building. The building has undergone two renovations and expansion. The first in 1992 which included the addition of a wing for classrooms and the second in 2015 which included a significant expansion. The College continues to experience growth in enrollment and currently educates more than 5,000 undergraduate, master's and doctoral students in accounting, economics, finance, management, marketing and supply chain management. This expansion project will add approximately 68,000 gsf on four levels (the 4th level is being evaluated to be bid as an Add Alternate and is included in the 68,000 gsf) on the south side of the current Gatton B & E Building. The project will include classrooms, a career center, study spaces, offices, and conference rooms. Minor renovations (approximately 6,500 NSF) will be made to the existing building and associated site work. The demolition of the adjacent Mathews Building will be completed by the University under separate contract. Rerouting of thermal utilities to Memorial Hall is included in the project scope as well.

The design will consist of preparation of Phase 1, 2, and 3 documents in accordance with university standards and procedures.

2.3 University Information

Upon his arrival in 2011, President Eli Capilouto set an ambitious agenda to extend and enhance our role as Kentucky's land-grant and flagship research university. By focusing on infrastructure growth and improvement; creating opportunities for innovative teaching, learning and academic excellence; fostering a robust research enterprise; providing life-saving subspecialty care; empowering communities through service and outreach; and encouraging a transparent and shared dialogue about institutional priorities; the University of Kentucky will help ensure a Kentucky tomorrow that is healthier, wealthier and wiser than it is today.

Our mission — 160 years strong — is to advance Kentucky in everything we do.

Founded in 1865 as a land-grant institution adjacent to downtown Lexington, UK is nestled in the scenic heart of the beautiful Bluegrass region of Kentucky. From its early beginnings, with only 190 students and 10 professors, UK's campus now covers more than 900 acres. In Fall 2025, the university enrolled nearly 39,000 total students, including another record-setting first-year class of more than 7,000 students — for the first time, more than 4,000 are Kentuckians and nearly 1,900 are first generation. The institution now employs approximately 33,000 employees, including nearly 3,300 full-time faculty.

UK is just one of eight universities in the United States that has programs in agriculture, engineering, law, fine arts and a full complement of health colleges including medicine and pharmacy, on a single campus alongside an academic health system, leading to groundbreaking discoveries and unique interdisciplinary collaboration.

The state's flagship university consists of 18 academic and professional colleges where students can choose from more than 200 majors and degree programs at the undergraduate and graduate levels. The colleges are Agriculture, Food and Environment; Arts and Sciences; Business and Economics; Communication and Information; Dentistry; Design; Education; Engineering; Fine Arts; Graduate School; Health Sciences; Honors; Law; Medicine; Nursing; Pharmacy; Public Health; and Social Work. These colleges are supported by a modern research library system.

Research at the University of Kentucky is a dynamic enterprise encompassing both traditional scholarship and emerging technologies. UK's research faculty, staff and students are establishing UK as one of the nation's most prolific public research universities. UK researchers were awarded \$496.9 million in extramural grant and contract funding in fiscal year 2025. Fifty-one percent of this funding comes from agencies in the federal government (\$255.3 million) such as the National Institutes of Health, National Science Foundation, Department of Energy, Department of Defense and numerous other federal sponsors. In fiscal year 2024, expenditures from research and development (R&D) activities at the university generated \$937 million in economic activity across the Commonwealth of Kentucky and supported 4,712 jobs.

With more than 70 research centers and institutes, UK researchers are discovering new knowledge, providing a rich training ground for current students and the next generation of researchers and advancing the economic growth of the Commonwealth of Kentucky. Several centers excel in the services offered to the public. The Gluck Equine Research Center is one of only three facilities of its kind in the world, conducting equine disease research.

The Center for Applied Energy Research (CAER) is internationally recognized for research in carbon fibers, rare earth metals, graphite, concrete and cement, energy policy, fuels research, hydrogen and materials characterization.

Among the brightest examples of UK's investment in transformative research is the Markey Cancer Center. As a center of excellence and distinction at UK, Markey's robust research and clinical enterprise is the cornerstone of our commitment to Kentucky — fundamental to our success in uplifting lives through our endeavors and improving the general health and welfare of our state — burdened by the nation's highest rate of cancer deaths per 100,000 people. In 2013, Markey earned the prestigious National Cancer Institute-designation (NCI) — one of 68 nationally and the only one in Kentucky. The designation was renewed in 2018 and 2023.

The University of Kentucky is the recipient of a Clinical and Translational Science Award (CTSA) from the National Institutes of Health (NIH). As one of only 60 institutions with this research distinction, UK was awarded the CTSA for its potential in moving research and discovery in the lab into practical field and community applications. The CTSA and NCI are part of a trifecta of federal research grants that includes an Alzheimer's Disease Research Center. UK is one of only 29 universities in the country to hold all three premier grants from NIH.

Established in 1957, the medical center at UK is one of the nation's finest academic medical centers and includes the university's clinical enterprise, UK HealthCare. Licensed for 1,150 beds across UK Albert B. Chandler Hospital, Golisano Children's at UK and UK Good Samaritan Hospital, the system is supported by a growing faculty and staff providing the most advanced subspecialty care for the most critically injured and ill patients throughout the Commonwealth and beyond.

UK Chandler Hospital includes the only Level 1 Trauma Center for adult patients in Central and Eastern Kentucky. In addition, UK HealthCare recently opened one of the country's largest robotic hybrid operating rooms and the first of its kind in the region. Our talented physicians consult with and travel to our network of affiliate hospitals so Kentuckians can receive the best health care available close to their homes and never need to leave the Bluegrass for complex subspecialty care.

As of December 1, 2022, King's Daughters Medical Center, based in Ashland, Kentucky, officially became part of the University of Kentucky. UK King's Daughters serves a 16-county region across Kentucky, Ohio and West Virginia. Its health system includes two hospitals totaling 455 licensed beds, more than 80 ambulatory centers and practice locations, a long-term care facility, medical transport company and eight urgent care centers.

The University of Kentucky Board of Trustees on Friday, April 26, 2024, approved plans to proceed with the acquisition of St. Claire HealthCare in Morehead. The move for St. Claire to become part of UK expanded clinical and academic programs as well as resulted in greater access to high-quality patient care for more Kentuckians. UK St. Claire is one of the largest employers in the region, with over 1,600 staff members, including a growing medical staff of more than 200 physicians and more than 100 advanced practice professionals representing more than 35 medical specialties. It includes the largest rural hospital in Northeastern Kentucky, seven primary care locations located within five counties, a multispecialty medical pavilion, two urgent care centers, a pediatrics clinic, as well as a retail pharmacy, counseling center, medical equipment and supply store and an outpatient center. Additionally, UK St. Claire provides home health and hospice services in eight counties within its 11-county service region. The acquisition was finalized on July 1, 2024.

In fiscal year 2024, UK HealthCare's six owned hospitals totaled more than 1,700 licensed beds, saw nearly three million ambulatory visits and discharged approximately 71,000 patients.

Also in October 2024, UK's Board of Trustees issued a bold charge: to unite the University of Kentucky's research, service and learning capabilities with partners to co-create solutions that expand opportunity, strengthen communities and improve well-being across Kentucky. That charge became the Advancing Kentucky Together (AKT) Network — a statewide partnership connecting organizations that share one vision: to ensure a Commonwealth where every Kentuckian has access to quality care, strong education, meaningful work and a connected community.

Through the AKT Network, the university and its partners are aligning ideas, resources and expertise to improve lives in every region of the state across four main pillars: health care access and innovation, education and opportunity pathways, workforce and economic development and land-grant and community engagement. So far, eight partners have formally joined the network, including two existing internal strengths — UK HealthCare's Healthy Kentucky Initiative and UK's Economic Development Collaborative's OneUK — as well as the first academic partner and inaugural major corporate partner.

From its Nobel Laureates to cutting-edge work in addressing health disparities, and from the artistic wonders that stir souls to our scientific creativity that inspires minds, UK seeks a brighter future through the contributions of our faculty, staff, students and alumni.

We are the University of Kentucky. We are committed to advancing Kentucky in everything that we do.

More information about UK can be found on this [this website](#).

SUSTAINABILITY

Sustainability is an institution-wide priority for the University of Kentucky. We strive to ensure that all activities are ecologically sound, socially just, and economically viable, and that they will continue to be so for future generations. This commitment also prioritizes the integration of these principles in curricula, research, athletics, health care, creative works, and outreach. This principled approach to operational practices and intellectual pursuits is intended to prepare students and empower the campus community to support sustainable development in the Commonwealth and beyond. The UK Sustainability Strategic Plan guides these efforts (<https://www.uky.edu/sustainability/sustainability-strategic-plan>).

2.4 Economic Engagement and Procurement

The University of Kentucky is committed to serving as an advocate for Kentucky located businesses as part of its on-going workforce development and economic development efforts.

The University desires to increase the amount of goods and services acquired from Kentucky located businesses. The University encourages its suppliers to support and assist in this effort.

The University's goals for increasing participation in procurement projects include but are not limited to the following:

- To ensure the absence of barriers that reduce participation.
- Educate vendors on "how to do business" with the University.
- Support Kentucky located vendors seeking to do business with the University in the areas of goods, services, construction, and other areas of procurement.
- Encourage participation of qualified Kentucky located vendors by directing them to agencies that can benefit from their product or service.
- Provide resources for Kentucky located vendors.
- Sponsor events to assist Kentucky located vendors in becoming active, responsible, and responsive participants in the University's purchasing opportunities.

For additional information regarding how Kentucky located suppliers may participate in this Request for Proposal, submit any questions to the Procurement Officer as indicated in Section 3.2 by the Deadline for Written Questions date.

The evaluation committee will review proposals and discuss the merits of each Offeror's technical proposal. Each committee member will independently evaluate the Phase 1 proposals and indicate an ordinal ranking (1st, 2nd, 3rd, etc.) of the firms for each evaluation criteria contained in this document and weighed per criteria described in the table below. Each committee member's final score for each firm will be the weighted average of the ordinal rank for each evaluation criteria using the points available for the evaluation criteria. The total weighted average points awarded to each Offeror by the committee members will determine the Phase 1: Technical Proposal ranks, and corresponding scores as illustrated below:

Rank	Phase 1 Score
1 st	100
2 nd	90
3 rd	80
4 th or below	0

The committee will create a shortlist based on the technical proposals. The university reserves the right to reject an offeror from further consideration regardless of the number of proposals received by the University.

8.0 FINANCIAL OFFER SUMMARY

The **financial offer is not required to be included in the first phase submittal**. It will be requested from firms which are selected to participate in Phase 2 of the selection process.

Provide a lump sum firm fixed fee quotation to perform the Construction Management services detailed in Section 7.1 for the project phases indicated in the table below. Indicate the corresponding percentage of construction cost or cost per calendar day in column B. If there is a discrepancy between the amount in column A and the percentage or cost per calendar day in column B, column A will prevail and will be converted to a percentage or cost per calendar day.

The “Financial Score” used in the selection process will be based on the “Total Cost for the Project” (see below) although an initial contract will be awarded for Design Phase Services only. Bidding, construction, and post-construction phase services will later be added by amendment to the initial contract (also ref. Article 5.0, EVALUATION CRITERIA PROCESS, Phase 2, Step 3).

This financial proposal is based on a construction cost of \$60,000,000 an estimated date of November, 2026 for the completion of design, a bidding phase, and 19 months for the construction phase to substantial completion.
