2.3 University Information

Upon his arrival in 2011, President Eli Capilouto set an ambitious agenda to extend and enhance our role as Kentucky's land-grant and flagship research university. By focusing on infrastructure growth and improvement; creating opportunities for innovative teaching, learning and academic excellence; fostering a robust research enterprise; providing life-saving subspecialty care; empowering communities through service and outreach; and encouraging a transparent and shared dialogue about institutional priorities; the University of Kentucky will help ensure a Kentucky tomorrow that is healthier, wealthier and wiser than it is today.

Our mission — 160 years strong — is to advance Kentucky in everything we do.

Founded in 1865 as a land-grant institution adjacent to downtown Lexington, UK is nestled in the scenic heart of the beautiful Bluegrass region of Kentucky. From its early beginnings, with only 190 students and 10 professors, UK's campus now covers more than 900 acres. In Fall 2025, the university enrolled nearly 39,000 total students, including another record-setting first-year class of more than 7,000 students — for the first time, more than 4,000 are Kentuckians and nearly 1,900 are first generation. The institution now employs approximately 33,000 employees, including nearly 3,300 full-time faculty.

UK is just one of eight universities in the United States that has programs in agriculture, engineering, law, fine arts and a full complement of health colleges including medicine and pharmacy, on a single campus alongside an academic health system, leading to groundbreaking discoveries and unique interdisciplinary collaboration.

The state's flagship university consists of 18 academic and professional colleges where students can choose from more than 200 majors and degree programs at the undergraduate and graduate levels. The colleges are Agriculture, Food and Environment; Arts and Sciences; Business and Economics; Communication and Information; Dentistry; Design; Education; Engineering; Fine Arts; Graduate School; Health Sciences; Honors; Law; Medicine; Nursing; Pharmacy; Public Health; and Social Work. These colleges are supported by a modern research library system.

Research at the University of Kentucky is a dynamic enterprise encompassing both traditional scholarship and emerging technologies. UK's research faculty, staff and students are establishing UK as one of the nation's most prolific public research universities. UK researchers were awarded \$496.9 million in extramural grant and contract funding in fiscal year 2025. Fifty-one percent of this funding comes from agencies in the federal government (\$255.3 million) such as the National Institutes of Health, National Science Foundation, Department of Energy, Department of Defense and numerous other federal sponsors. In fiscal year 2024, expenditures from research and development (R&D) activities at the university generated \$937 million in economic activity across the Commonwealth of Kentucky and supported 4,712 jobs.

With more than 70 research centers and institutes, UK researchers are discovering new knowledge, providing a rich training ground for current students and the next generation of researchers and advancing the economic growth of the Commonwealth of Kentucky. Several centers excel in the services offered to the public. The Gluck Equine Research Center is one of only three facilities of its kind in the world, conducting equine disease research.

The Center for Applied Energy Research (CAER) is internationally recognized for research in carbon fibers, rare earth metals, graphite, concrete and cement, energy policy, fuels research, hydrogen and materials characterization.

Among the brightest examples of UK's investment in transformative research is the Markey Cancer Center. As a center of excellence and distinction at UK, Markey's robust research and clinical enterprise is the cornerstone of our commitment to Kentucky — fundamental to our success in uplifting lives through our endeavors and improving the general health and welfare of our state — burdened by the nation's highest rate of cancer deaths per 100,000 people. In 2013, Markey earned the prestigious National Cancer Institute-designation (NCI) — one of 68 nationally and the only one in Kentucky. The designation was renewed in 2018 and 2023.

The University of Kentucky is the recipient of a Clinical and Translational Science Award (CTSA) from the National Institutes of Health (NIH). As one of only 60 institutions with this research distinction, UK was awarded the CTSA for its potential in moving research and discovery in the lab into practical field and community applications. The CTSA and NCI are part of a trifecta of federal research grants that includes an Alzheimer's Disease Research Center. UK is one of only 29 universities in the country to hold all three premier grants from NIH.

Established in 1957, the medical center at UK is one of the nation's finest academic medical centers and includes the university's clinical enterprise, UK HealthCare. Licensed for 1,150 beds across UK Albert B. Chandler Hospital, Golisano Children's at UK and UK Good Samaritan Hospital, the system is supported by a growing faculty and staff providing the most advanced subspecialty care for the most critically injured and ill patients throughout the Commonwealth and beyond.

UK Chandler Hospital includes the only Level 1 Trauma Center for adult patients in Central and Eastern Kentucky. In addition, UK HealthCare recently opened one of the country's largest robotic hybrid operating rooms and the first of its kind in the region. Our talented physicians consult with and travel to our network of affiliate hospitals so Kentuckians can receive the best health care available close to their homes and never need to leave the Bluegrass for complex subspecialty care.

As of December 1, 2022, King's Daughters Medical Center, based in Ashland, Kentucky, officially became part of the University of Kentucky. UK King's Daughters serves a 16-county region across Kentucky, Ohio and West Virginia. Its health system includes two hospitals totaling 455 licensed beds, more than 80 ambulatory centers and practice locations, a long-term care facility, medical transport company and eight urgent care centers.

The University of Kentucky Board of Trustees on Friday, April 26, 2024, approved plans to proceed with the acquisition of St. Claire HealthCare in Morehead. The move for St. Claire to become part of UK expanded clinical and academic programs as well as resulted in greater access to high-quality patient care for more Kentuckians. UK St. Claire is one of the largest employers in the region, with over 1,600 staff members, including a growing medical staff of more than 200 physicians and more than 100 advanced practice professionals representing more than 35 medical specialties. It includes the largest rural hospital in Northeastern Kentucky, seven primary care locations located within five counties, a multispecialty medical pavilion, two urgent care centers, a pediatrics clinic, as well as a retail pharmacy, counseling center, medical equipment and supply store and an outpatient center. Additionally, UK St. Claire provides home health and hospice services in eight counties within its 11-county service region. The acquisition was finalized on July 1, 2024.

In fiscal year 2024, UK HealthCare's six owned hospitals totaled more than 1,700 licensed beds, saw nearly three million ambulatory visits and discharged approximately 71,000 patients.

Also in October 2024, UK's Board of Trustees issued a bold charge: to unite the University of Kentucky's research, service and learning capabilities with partners to co-create solutions that expand opportunity, strengthen communities and improve well-being across Kentucky. That charge became the Advancing Kentucky Together (AKT) Network — a statewide partnership connecting organizations that share one vision: to ensure a Commonwealth where every Kentuckian has access to quality care, strong education, meaningful work and a connected community.

Through the AKT Network, the university and its partners are aligning ideas, resources and expertise to improve lives in every region of the state across four main pillars: health care access and innovation, education and opportunity pathways, workforce and economic development and land-grant and community engagement. So far, eight partners have formally joined the network, including two existing internal strengths — UK HealthCare's Healthy Kentucky Initiative and UK's Economic Development Collaborative's OneUK — as well as the first academic partner and inaugural major corporate partner.

From its Nobel Laureates to cutting-edge work in addressing health disparities, and from the artistic wonders that stir souls to our scientific creativity that inspires minds, UK seeks a brighter future through the contributions of our faculty, staff, students and alumni.

We are the University of Kentucky. We are committed to advancing Kentucky in everything that we do.

More information about UK can be found at this [this website](#).

SUSTAINABILITY

Sustainability is an institution-wide priority for the University of Kentucky. We strive to ensure that all activities are ecologically sound, socially just, and economically viable, and that they will continue to be so for future generations. This commitment also prioritizes the integration of these principles in curricula, research, athletics, health care, creative works, and outreach. This principled approach to operational practices and intellectual pursuits is intended to prepare students and empower the campus community to support sustainable development in the Commonwealth and beyond. The UK Sustainability Strategic Plan guides these efforts (<https://www.uky.edu/sustainability/sustainability-strategic-plan>).

2.4 Economic Engagement and Procurement

The University of Kentucky is committed to serving as an advocate for Kentucky located businesses as part of its on-going workforce development and economic development efforts.

The University desires to increase the amount of goods and services acquired from Kentucky located businesses. The University encourages its suppliers to support and assist in this effort.

The University's goals for increasing participation in procurement projects include but are not limited to the following:

- To ensure the absence of barriers that reduce participation.
- Educate vendors on "how to do business" with the University.
- Support Kentucky located vendors seeking to do business with the University in the areas of goods, services, construction, and other areas of procurement.
- Encourage participation of qualified Kentucky located vendors by directing them to agencies that can benefit from their product or service.
- Provide resources for Kentucky located vendors.

The University will provide ten (10) calendar days written notice of default. Unless arrangements are made to correct the non-performance issues to the University's satisfaction within ten (10)

calendar days, the University may terminate the contract by giving forty-five (45) days notice, by registered or certified mail, of its intent to cancel this contract.

A conflict of interest (whether contractual, financial, organizational or otherwise) exists when any individual, contractor or subcontractor has a direct or indirect interest because of a financial or pecuniary interest, gift or other activities or relationships with other persons (including business, familial or household relationships) and is thus unable to render or is impeded from rendering impartial assistance or advice, has impaired objectivity in performing the proposed work or has an unfair competitive advantage.

Questions concerning this section or interpretation of this section should be directed to the University purchasing officer identified in this RFP.

6.25 Personal Service Contract Policies

Pursuant to the Kentucky Model Procurement Code (Code), the Government Contract Review Committee (GCRC) of the Kentucky General Assembly may establish policies that govern personal

service contracts. Under the Code, a personal service contract is an agreement whereby an individual, firm, partnership or corporation is to perform certain services requiring professional skill or professional judgment for a specified period of time at an agreed upon price.

A. Professional Service Rate Schedules:

The GCRC has established rate schedules for certain professional services and may impact any contract established under the Code. These rate schedules are located on the GCRC website at the following link: <https://apps.legislature.ky.gov/moreinfo/contracts/homepage.html>. Access/click the dropdown menu within the web page for the rates information.

B. Invoicing of Personal Service Contracts:

The Kentucky Model Procurement Code was recently amended to establish conditions for invoicing fees for personal service contracts. It states, “No payment shall be made on any personal service contract unless the individual, firm, partnership, or corporation awarded the personal service contract submits its invoice on a form established by the committee.” The Government Contract Review Committee has adopted a personal service contract invoice form that must be submitted as a condition of payment. A copy of the form is located on the GCRC website at: <https://apps.legislature.ky.gov/moreinfo/contracts/PSC%20INVOICE%20FORM.pdf>.

For any work that is not considered a work made for hire under applicable law, title and copyright ownership shall be assigned to the University.

Title to all dies, type, cuts, artwork, negatives, positives, color separations, progressive proofs, plates, copy and any other requirement not stated herein required for completion of the finished product for use in connection with any University job shall be the property of and owned by the University. Such items shall be returned to the appropriate department upon completion and/or delivery of work unless otherwise authorized by the University. In the event that time of return is not specified, the contractor shall return all such items to the appropriate University department within one week of delivery.

6.27 University Brand Standards

For purposes of clarity, updated regulations under Section 508 standards now incorporate WCAG 2.1 Level AA, and for purposes of this agreement WCAG 2.1 Level AA compliance is

expressly included. Contractor agrees to promptly respond to, resolve and remediate any complaint regarding accessibility of products or services not in compliance with Section 508 and WCAG 2.1 Level AA in a timely manner and provide an updated version to

University at no cost. If deficiencies are identified, University reserves the right to request from Contractor, a timeline by which accessibility standards will be incorporated into the products or services provided by Contractor and shall provide such a timeline within a commercially reasonable duration of time. 6.28 Printing Statutes

The purchase of printing services for all state agencies is governed by Chapter 57 of the Kentucky Revised Statutes. Specifically, all printing must be awarded to the lowest responsive bidder and approved by the Governor of Kentucky. In compliance with these statutes, all printing must be provided by a contract established by Procurement Services.

6.29 Requirement for Contract Administration Fee

As a condition of award, successful Contractor(s) should provide a contract administration fee to the University for all goods and/or services provided under the resultant contract. The fee shall be on a quarterly basis and shall be equivalent to 2% of the aggregate net value of goods/services sold to the University, exclusive of freight charges.

The fee should be reported and paid within 30 calendar days of the end of conventional calendar quarters ending March 31, June 30, September 30, and December 31 of each year. Fees should be paid in the form of a check made payable to the University of Kentucky and should be delivered to Procurement Services, Room 322 Peterson Service Building, 411 S. Limestone, Lexington, Kentucky 40506-0005. Each fee payment should be accompanied by a statement indicating the referenced University price contract to which it applies and indicate the aggregate value of goods/services provided and paid during the quarter, the fee percentage applied, and the net amount of the quarterly payment. If any errors are found in the report or calculations as determined by University, the successful Contractor should correct them immediately upon notification.

The successful Contractor(s) may extend the pricing, terms, and/or conditions of this contract to other universities, state agencies, and public and private institutions, with prior approval of the

6.30 Payment Terms

The University adheres to a strategic approach regarding payables management based on risk minimization, processing costs, and industry best practices. As such, suppliers and individuals doing business with the University will be paid based on the following protocol:

1. The University utilizes Payment Plus (e-payables) as its primary default form of payment. By enrolling in Payment Plus, suppliers can receive payments immediately (all invoices will be paid immediately upon confirmation of goods receipt and invoice). The process is electronic and the supplier receives real-time payment notices. Additional information regarding Payment Plus (and enrollment form) can be found at: <https://www.uky.edu/ufs/payment-plus-supplier-enrollment-form>.
2. Payments by check. Payment terms for check payments are Net-30.
3. Individuals receiving payments from the University that require ACH direct payments will only be processed under special circumstances as approved by the Controller's office. Payment terms for ACH are Net-15.

7.0 SCOPE OF SERVICES

7.1 Detailed Services Defined

COMPLIANCE WITH SPECIFICATIONS

- A. The Libraries expect that all materials and methods used in fulfilling the contract will conform to the specifications of *ANSI/NISO/LBI Standard for Library Binding*, ANSI/NISO/LBI Z39.78-2000 (Oxon Hill, MD: NISO Press, 2000), referenced in **Appendix A** and, hereafter referred to as the *ANSI/NISO/LBI Standard*. Should the *ANSI/NISO/LBI Standard* be revised during the life of this contract, the successful contractor should meet the relevant specifications of that revision.
- B. Any improvements in methods or materials used by the successful contractor may be acceptable to the Library within the terms of this contract under the following conditions:
 - The methods and/or materials should undergo extensive, documented testing which measures their strength, durability, and functional qualities such as open ability of the volume.
 - Tests should clearly indicate that the innovation(s) should provide an end product that is equal in quality or better than the original. The Library, prior to implementation, should approve adoption of any innovation in writing.
- C. The Library should specify binding styles and categories of treatment for some, but not all, items. In those instances in which the Library does specify the style (e.g., method of leaf attachment) or category (e.g., standard monograph, custom periodical) for an item, that decision should not be changed by the successful contractor without prior consent of the Library. If an item cannot be prepared in the manner specified, the successful contractor should contact the Library for instructions or the item should be returned by the successful contractor with an explanation of the reason for its rejection.
- D. Defects in materials or manufacture (such as errors in lettering, lettering worn off so as to be illegible, defective sewing, ill-fitting cases, use of improper adhesives, etc.) should be returned and repaired at no cost to the Library. Normal wear of the covering material should be excluded.
- E. To indicate the successful contractor's responsibility for the workmanship, a code mark should be stamped or glued to the volume in an appropriate place agreed upon by the Library that should indicate the year and job lot number in which the volumes were processed and the name of the successful contractor. This should serve as the company's guarantee of quality workmanship. Materials used for a binder's mark (paper, adhesive, ink) should be chemically neutral so as not to cause deterioration of the paper or the textblock.
- F. In the event that service or the quality of the work is not satisfactory, the Library is to provide a written detailed complaint within fourteen days of receipt of the given successful contractor's shipment. Corrections to any complaint are to be made within fourteen days of receipt of the Library's written complaint, failure to comply may result in termination of contract.

DAMAGED MATERIALS

- A. The limit or value for a lost or damaged item should be a sum that covers the cost to the Library of replacing, processing and binding the item.
- B. In the event that the exact edition of the damaged or lost item cannot be replaced, the Libraries may choose to replace the item with a similar edition or similar title. The successful contractor should bear the cost of the item as well as the Library's processing and binding costs.
- C. In the event that an irreplaceable or highly valued item is damaged or destroyed, the Library reserves the right to secure, at the successful contractor's expense, an independent appraisal of the damage or loss sustained. The successful contractor should reimburse the Library in full for the damage to, or for the fair market value of, the item. In addition, the successful contractor should pay for the appraiser's fees and up to \$100 of the Library's processing costs. The Library requests a credit for these damages under separate cover.

LIQUIDATED DAMAGES AND CANCELLATION

The successful contractor should pay a liquidated damages charge of one (1) dollar per calendar week, or any part thereof, for each overdue item. Items will be considered overdue if not received within 42 days of shipment. No penalty should apply in cases where the Library has been notified that the return of an item will be delayed and agrees to this arrangement.

SUBCONTRACTING

All work affiliated with the resulting contract should be done in the successful contractor's plant. If the successful contractor manages more than one facility, the response to this RFP should specify where the services will be performed.

- B. Items requiring conservation treatment or protective enclosures should be returned within three (3) months of the pickup and/or order date.
- C. The Library will sort all materials by product type, and the successful contractor will pack, pick up and deliver each shipment. Some subject libraries may prefer to pack their own materials in order to conserve floor space. This will be the exception to the standard procedure and will be documented in the individual Library or departmental profile.

No shipping charges will be added for return shipments from the successful contractor to Academic Departments.

- I. Shipping cartons, preprinted address labels, and binding tickets should be provided by the successful contractor at no extra charge.

ERRORS, DELAYS, RETURNS

- A. Any errors made by the successful contractor should be corrected, provided corrections do not damage the textblock, without additional charge to the Library, and returned with the next shipment. The successful contractor should pay for any extra transportation costs resulting from such errors. Errors which require the skills of a conservator to correct, or which cannot be corrected, should be subject to the sections titled **Insurance and Security** and **Damaged Materials** of this contract.
- B. Errors made by the Library should be corrected, provided the corrections do not damage the textblock, at full charge to the Library, and returned with the next shipment.
- C. Materials sent for correction should be invoiced together with notations of full charge or no charge attributed to each item on the packing list.
- D. The successful contractor will return unbound volumes which are incomplete in any form, i.e., pages or issues missing, etc., unless instructions have been given as to how they should be handled.

- E. The successful contractor will return unbound volumes which are deemed too brittle to bind, unless instructions have been given as to how they should be handled, such as "make phase box if too brittle to bind".
- F. Whenever books are withheld from a return shipment for any reason, the packing lists should indicate which items were held, and the invoices should indicate number of items for each product type that were held. Refer to the section titled **Invoices and Payments** for additional information about withheld items.

INVOICING AND PAYMENT

- A. All invoices should be mailed, delivered or emailed to the address specified on each purchase order. The successful contractor should provide invoices for each shipment within seven (7) days of delivery of the shipment to the Library.
- B. A packing list should be generated for each shipment, and be mailed, emailed or delivered to the address specified.
- C. Each invoice should be organized by Library location, pickup date, type of material (i.e., periodicals, books, theses, etc.), and show the successful contractor's work order number. Each type of treatment should be listed separately and include the number of items so treated, the charge per item, and the total charge for that treatment. When any extra charges are necessary, they should be shown by category and any special preparation or time charges should be explained clearly on the packing list or noted with the invoice.
- D. The successful contractor will accept responsibility for invoicing at the prices quoted and in the proper units of measure as standardized by this Request for Proposals.
- E. Packing lists should indicate withheld or "returned unbound" items. The Libraries will not be charged for "returned unbound" items.
- F. An order may be considered complete, when all materials have been returned and/or accounted for. Whenever volumes are withheld or returned unbound for any reason, the invoices should include adjustments for the held or returned items. The withheld items will be separately invoiced at the conclusion of the work. A separate packing list for these withheld items should accompany the separate invoice. If an item is lost or damaged and this information is not accounted for on an invoice, the payment by the Libraries will be adjusted to exclude the binding services for the lost or damaged items.
- G. Books, periodicals, newspapers, enclosures, digital facsimiles and conservation treatments may be invoiced together. The following two categories should be invoiced separately:
 - Withheld items
 - Other circumstances requested by the Libraries

RECORD ACCESS

The Library should provide access to its records of binding titles and colors. The staff costs required to establish or translate the Library's binding database and to set up the new system in the Library should be borne by the successful contractor.
