Neuro Interventional Products & Accessories
RFP **UK-2624-27**
Closing Date: **10/27/2026**
Today's Date: **10/16/2026**

No.	Question		Answer
1	We are being asked to provide all products we offer in the Neuro Intervention and accessories category. How does UK plan to handle products that are being added to the bid that are not approved (SAP number) at UK currently?		We will evaluate items not currently in SAP on an item by item basis and may add to formulary. Items not added to formulary can still be added to contract for future consideration.
2	Is there a list of products currently being used that we can cross reference with our products?		A list of products currently being used is not being provided. Please submit the products you are proposing with your best available pricing. Product cross-referencing will be addressed during the evaluation process with input from our physicians. Any additional pricing concessions tied to volume or commitment levels may be explored during subsequent negotiations.
3	Would like to confirm. If awarded, will the executed agreement be good for King's Daughters and St. Claire?		Per 2.1 Intent and Scope of the RFP, any resulting contract may be used at University of Kentucky and affiliated healthcare locations.
4	Please confirm this RFP is specific to Neurovascular Intervention and will not include Thrombectomy products?		It will include Thrombectomy products.
5	Is there a standard format you are using for the proposal? I couldn't find one of the link.		No, offerors may submit an excel spreadsheet in whatever format they want, as long as it contains the information requested in 7.1, Required Financial Proposal, of the RFP

6	My understanding in reading the proposal is that you need to receive 4 USB drives, delivered to the hospital, for the bid process? I wanted to clarify. So nothing will be excepted via email?		Please refer to section 3.6, proposal submission and dealine, of the RFP. E-mailed submissions are not acceptable.
